Surat Castle

In 1540, Sultan Mahmud III had this castle built with extra strength for protection against Portuguese raids. The castle contains huge towers which are round in shape with a height of 12.2 meter. The walls of the tower are very wide with approximately 4.1 meter width. In order to ensure high strength for the building, the component units were fastened together using iron strips. The various joints around the caste were filled using melted lead to provide additional strength to sustain terrific attacks by the enemies. The most striking attraction of the castle is the gateway which opens towards the east direction and contained several projecting spikes on its door to stop the entrance of enemies. The castle was also provided with a moat which was connected to the river and the moat always had water in it. The access to the castle was through a drawbridge which could be closed when required thus restricting the enemies from getting access to the castle.

As per the historical evidences, Surat city has never been attacked by Portuguese after the construction of the Castle. The castle is presently a prime location for various government offices.

FOREWORD

1. The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non-Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and Ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non-Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town like; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking and other miscellaneous facilities. Later on, the telegraph services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tehsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tehsil/ PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and most important commodity manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management

Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio-gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts craven by Animals, Village connected to National Highway, State Highway, Major District Road and other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System (PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking and (vii) Civic & other amenities in slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Manish Bharadwaj, I.A.S., Directorate of Census Operations, Gujarat. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl. RGI, Shri A.P.Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Shri A.K.Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

New Delhi.

(Dr. C.Chandramouli)
Registrar General & Census Commissioner, India

FOREWORD

I acknowledge the efforts made by the Directorate of Census Operations as well as District Census Hand Book Unit of Gujarat State in bringing out the District Census Hand Book Part-A and Part-B for Gujarat State. The Hand Book presents detailed information of area, population, households and working population in various categories and will no doubt be useful to the administration at State, District and Taluka levels in planning, policy formulation and decision making. I also convey my congratulations to the Registrar General and Census Commissioner, Government of India for his guidance in bringing out this publication.

(S. Aparna)
Principal Secretary (Planning)
General Administration Department

October, 2015
Gandhinagar

P r e f a c e

I am deeply indebted to all the officers of Gujarat Government for their unstained support and cooperation at all stages of Census 2011. I am grateful to Shri A.K.Joti, then Chief Secretary, Shri Aloriya, Chief Secretary of Gujarat State, Shri V.N.Maira, then Additional Chief Secretary, Ms. S.Aparna, Principal Secretary and Shri A.D.Patel, Joint Secretary of General Administration Department (Planning) for their prompt response, guidance and cooperation to Census Organization. They infused a sense of urgency and seriousness in the minds of officer of the district administration, which geared up the entire administrative machinery. Cooperation received from then Under Secretary Shri J.T.Malvi, then Section Officer Kum N.M.Muni, and Section Officer Shri H.C.Dave, General Administration Department (Planning). I would like to thanks Shri R.N.Pandya then Director and Shri S.K.Hudda, Director of Economics & Statistics for their great support.

District Census Handbook Unit of Gujarat is a joint exercise of the Government of Gujarat and the Census Organization of the Government of India. In the preparation of the DCHB, the role played by Census Organisation is that of Census data collection, scanning of collected information, validation, compilation and analysis of data. DCHB Unit of the State Government collected the basic non-census information relating to amenities and infrastructures available in the village of the district. Apart from bearing the cost of this publication, all the official of different departments of the State Government extended whole hearted co-operation for accomplishing the task. Most of the data supplied by the various departments were cross-checked and an attempt was made to reconcile the discrepancies as well in order to get the final figures.

The District Collector, the District Development Officer, District Statistical Officer, District Information Officer and their staff member extended their warm and whole hearted co-operation for carrying out field work of the census and collection of non-census data for the District Census Handbook.

I am deeply grateful to Dr. C.Chandramouli, I.A.S., the Registrar General and Census Commissioner, India for the benefit I have derived by the way of guidance and advice. I also express my thanks to Shri Deepak Rastogi present Addl. RGI, Shri P.K.Banerjee, Deputy Registrar General (C&T), Shri A.P.Singh, Deputy Registrar General (Map), Dr. Pratibha Kumari, Assistant Registrar General (SS), Shri M.S.Thapa, Addl. Director (EDP), Shri A.K.Arora, Joint Director (EDP) and Shri Mahipal Singh, Assistant Director (SS) for providing technical guidance in finalizing this publication.

Shri Manish Bharadwaj, I.A.S., who held the office of Director of Census Operations, Gujarat had guided the operations of the 2011 Census. The data presented in this handbook were collected and compiled under the direction and guidance of Shri Manish Bharadwaj. However, he was repatriated to the State Government before this volume could be made available for the press.

At state Office, Shri R.R.Pandya, Joint Director, Shri M.R.Raol, Deputy Director, Kum S.B.Parmar, Research officer, Shri J.B.Panchal, Research Officer, Shri P.C.Khandhadia, Section Officer, Smt. K.B.Panchal, Research Assistant of District Census Handbook Unit and their team of able assistant meticulously collected and scrutinized the non-census data from various sources and prepared draft to DCHB etc. with the help of Census section. The other

officials of DCHB Unit, who scrutinized, edited and supervised the work of DCHB, have been mentioned in the "Acknowledgement".

Of this Directorate I would like to extend my sincere thanks to Shri R.S.Meena, DRG (C&T), who had played major role in Census 2011 of Gujarat. Dr. Bhaveshkumar P. Mehta, Joint Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedules through Intelligent Character Recognition technology. Smt.V.A.Warade, Deputy Director, Shri Ramsingh Meena, Deputy Director and Shri S.Lingasamy, Deputy Director who were assisted by Dr. Sanchita Sarkar, Assistant Director and her team of dedicated worker deserve all praise for their perseverance and dedication in preparing the publication. The maps provided in the DCHB are prepared by the Map Section of the Census Directorate under the supervision of Dr. R.K.Sharma, R.O. (Map). I am thankful to all of them.

I am also thankful to all the Census Staff who provided assistant directly or indirectly in finalizing data at every stage and for final scrutiny of this publication.

Date: 31-10-2014

History and Scope of the District Census Handbook

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non-census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non-census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tehsil/ town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine- fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data insteas of the traditional tahsil/ taluk/ PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and most important commodity manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of ‘notified slums’.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

……

Brief History of the District

The intervening region of Gujarat, including the present Surat District must have been under the Mauryas at the time of Ashoka (B.C. 273-236). As Ashoka is not credited with any conquests in Western India, it is likely that the whole of the Surat district, along with other parts of Gujarat might have been conquered by Chandragupta Maurya. This is corroborated by the inscription of Rudradaman at Girnar. The Mauryan power established by Chandragupta continued atleast up to the death of Ashoka. The history after Ashoka period is confused and it is difficult to find out the successors of Maurya till the Muslims finally conquered Gujarat in 1299 A.D. The settlement of Parsis at Sanjan also took place during this period. According to a poetic account known as Kisschi Sanjan, the Parsis who had left Persia came to Diu and stayed there for nineteen years. They again landed near Sanjan in the latter part of the seventeenth century. Jadirana, apparently a Yadav chief of South Gujarat, gave the permission to settle there on their agreeing to learn the language of the country, to make their women dress like Hindu women, to cease to wear arms and to hold their marriages at night. Surat, the headquarters of Surat district is believed to have been founded by Gopi, a Nagar Brahmin who rose to be the Prime Minister in the Sultanate of Gujarat under Mahmud I and Muzzffar II.

The castle of Surat was built in 1546 during the reign of Sultan Mahmud III to protect the city from the onslaught of the Portuguese who had plundered it thrice before. Surat then fell into the hands of Emperor Akbar in 1573. The district and the city of Surat in particular enjoyed peace during the reign of Mogul emperors, viz. Akbar, Jahangir and Shahjahan for the next eighty five years, Surat which rose to be one of the first cities of India during the reign of Shahjahan and though seized twice by Shivaji during the reign of Aurangzeb, the morale of its traders as well as its trade remained unaffected. Surat had its mint and coins which were current in South Gujarat till 1688. The British opened their factory at Surat in 1613 and the Dutch in 1620. After the death of Aurangzeb, it suffered from increasing disorders and the Governors of Surat were Subject to the court of Delhi in name only. The French also had established a factory at Surat in 1719 but with the ascendant of the English at Surat and their victories over the French in Southern India, deprived the factory of its importance in the history of Surat. Governor Sorabkhan ultimately styled himself as the Nawab of Surat in 1725 and became independent. Surat was then ruled by independent Governors till the English captured the city. The Governors of Surat who were then appointed by the English held to some extent a position of nominal independence till 1800 when the whole administration was taken over by the English.

During 1772, Surat was considered as one of the greatest emporiums of trade in India after which it had a time of decline in its fortunes as its foreign trade had practically been transferred to Bombay. After the British, the masters of the district, a Muslim named Abdul Rehman tried to break public peace in 1810 but he was successfully curbed down by the Britishers. They had to face the opposition of the people thrice, when they tried to introduce in the district the duty on salt in 1884, Bengal Standard Weights and Measures in 1848 and income tax in 1860. The people of Surat again protested when the License tax was introduced in 1878 and a riot had eventually broken out on the occasion. The district had formed a part of the Bombay Presidency and was administered as such till 1947. Surat had also suffered from a

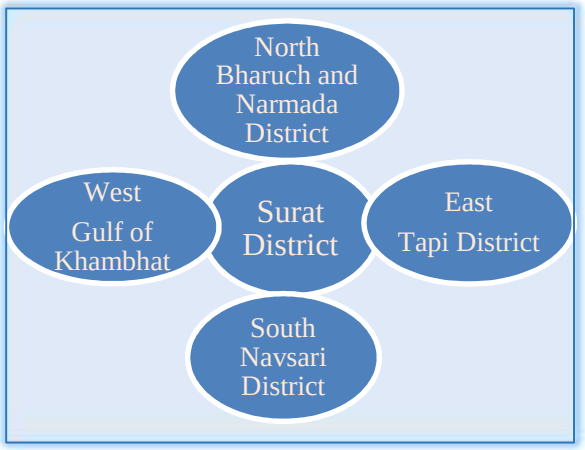

very severe flood in 1883 and a great fire in 1889. The Hope Bridge across the Tapi was also constructed in 1877 at a cost of Rs. 8.13 lakhs. The holdings of historic 23rd session of the Indian National Congress in Surat in 1907, the Bardoli Satyagraha of 1928, the momentous Dandi March undertaken by Mahatma Gandhi in 1930 are the landmarks in the history of the district. After the Independence, the territories of Dharampur and Bansda States and the Navsari prant of the former Baroda State were amalgamated with it to form the Surat district of the Bombay State.

In November 1956, the States were reorganized and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions. The Surat district along with the other districts of Ahmadabad Division formed part of the bigger bilingual State.

Lastly, the Bombay State was bifurcated on 1st May, 1960 and separate States of Gujarat and Maharashtra were formed. Since that date, the Surat district became a part of the Gujarat State.

ANALYTICAL NOTE

(i) Physical Features

Surat district is situated in the southern part of the Gujarat state. It lies between the parallels of latitude 20.81^0 to 21.58^0 north and the meridians of longitude 72.61^0 to 73.71^0 east. The length from north to south of this territory is about 84.9 km and from east to west is about 177.7 km. The district makes its boundaries with the district of Tapi in the East, Bharuch and Narmada districts in the North, Navsari district in the South and the Gulf of Khambhat in the west. This district has undergone jurisdictional change by transferring 5 talukas in the newly created district Tapi. At present, Surat district consist 10 talukas. The district includes 8 statutory towns 14 census towns and 713 villages. The area covered by Surat district is 4,549 sq. km and having 15th ranks in comparison to other districts of the state. It covers 2.31% of total geographical area of Gujarat, but the density of the district is 1,337 persons per sq. km compare to 308 the density of the Gujarat state. Surat is a historical port city and it is the fourth fastest developing city of the world. It is being an industrial hub of the country with flourishing business of diamond, textile and petrochemicals and has encroached upon the agricultural lands of neighboring talukas. The city is not only employing locals or people from Gujarat but migrants from all over India. This resulted in heavy urbanization. Due to industries and urbanization affluent is also very high.

Physiography

The district Surat forms a part of Gujarat Plain and is further subdivided into seven sub-micro regions namely, Khambhat Coast, Mangrol Plain, Umarpada Forested Upland, Tapi Basin, Mindhola -Purna Plain, Kalakakra Hills and Chorasi-Palsana Coastal Plain on the basis of topography, climate, geology, soils and natural vegetation.

(1) Khambhat Coast Region

The region covers the north-western part of the district and extends over Olpad and Mangrol talukas. Bharuch district bounds it in north, Mangrol Plain in the east and Arabian Sea in the west. This part of the district is coastal area with maximum elevation of 20 meters in the east to 10 meters above M.S.L. in the west. We may find alluvium, blown sand, undifferentiated Eocene Beds formations, Orthids-Aginepts soils cover and Usteris-Ochrepts Soils as geological structure in this region.

(2) Mangrol Plain Region

The plain extends over part of Mangrol and Mandvi talukas of the district. It is enclosed by Bharuch district from north, by Khambhat Coast from west, by Tapi Basin from south and by Umarpada Forested Upland from east. The relief reflects that the general slope of the region is from east to west. In the eastern portion, the elevation goes up to 67 meters while near Kosamba town; the altitude is 27 meters above Mean Sea Level. You may see the geological structure of Alluvium, blown sand, etc., Undifferentiated Eocene Beds, Sub-Nummulitic Beds and Deccan Trap. Soils are categorized as Usterts-Ochrepts type in this region.

(3) Umarpada Forested Upland Region

This small region falls in the northern part of the district and occupies part of Mangrol and Mandvi talukas. It makes its limits with Bharuch district in the north, Mangrol Plain in the west and Tapi Basin in the south and east. The relief feature indicates that the general elevation of the region is 300 meters above Mean Sea Level The eastern part of the upland is relatively higher and it contains the height of 375 meters. The region is well forested and is composed of Deccan Trap formation. Soils are categorized as Orthents-Ochrepts and Usterts-Ochrepts types. This region covers state high way for transportation.

(4) Tapi Basin Region

The region extends over the central part of the district and occupies parts of Mangrol, Chorasi, Mandvi, Kamrej and Bardoli talukas. It makes its boundaries with Khambhat Coast, Mangrol Plain and Umarpada Forested Upland and Bharuch district in the north, Maharashtra state in the north-east and south-east, Mindhola-Purna Plain and Chorasi-Palsana Coastal Plain in the south and Arabian Sea in the west. This basin is formed by Tapi river and it flows north-east to south-west direction. The central part of the region is covered under forests. Geologically, this region has formed Alluvium, Blown Sand, Deccan Trap, Undifferentified Eocene Beds, Sub-Nurrilific Beds, Orchids Aquepts, Orthents. Octrepts and Usterts- Ochrepts types of Soil.

(5) Mindhola-Purna Plain Region

The region covers the southern part of the district including parts of Palsana, Kamrej, Bardoli and Mahuva and Valod talukas. It is enclosed by Tapi Basin from north, by Kalakakra Hills from east, by Valsad district from south and by Chorasi-Palsana Coastal plain from west. The general slope of the region is east to west. The elevation of eastern portion rises up to 35 meters near Bardoli town while the part of Palsana taluka is less than 35 meters. There are also some pockets of forests in the region. The geology of the region consists mainly of Deccan Trap and Alluvium, blown sand, etc., formations and soils are Usterts-Ochrepts. The Mindhola and Purna rivers rise in the Arabian Sea not too far south of Surat city.

(6) Kalakakra Hills Region

This hilly region occupies the south-eastern part of the district and covers some part of The Dangs district. It makes its limits with Maharashtra state in the north and east, The Dangs district in the south and Mindhola-Purna in the west. The terraces of the region is hilly and the elevation ranges between 300 meters and 500 meters above M.S.L. The western part of the region is comparatively low in altitude. The geology of region is formed of Deccan Trap formation and it has Orthents-Ochrepts and Usterts-Ochrepts soils cover.

(7) Chorasi-Palsana Coastal Plain Region

The region occupies the south-western part of the district and extends over parts of Chorasi and Palsana talukas. It is surrounded by Tapi Basin from west and north, by Mindhola-Purna Plain from east and by Valsad district from south. As regards the relief, the region is the lowest one in the district and is having the elevation of 11 meters above M.S.L. in the eastern portion and about 67 meters in western portion. The region has the geological structure of Alluvium, blown sand, etc., and soils are Orthids-Aquepts and Usterts-Ochrepts.

Hills

Surat district has minor hill ranges. It belongs to the western coastlands of the Deccan Peninsula. The main Sahyadrian stripe is a little outside the limits of the district. The eastern hilly tract is almost in the form of an arc broadly stretching from the Songadh to the south-western margins of the Dharampur of Valsad district. In the north, near the village of Tadkeshwar, on the right of the Tapi River and further east in the Mandvi, a chain of flat topped hills has underlain by trap, varying from 200 to 300 feet in height, stretch northwards to the main lines of the Rajpipla ranges. The district consists of two main physiographic sub-divisions, the eastern hilly tract bounded on the north by the Satpuda ranges and on the south by the Sahyadri ranges. The western part of the region is relatively low in height. The north-eastern part comprising Umarpada taluka, is hilly comparatively and inhabited mainly by various tribes. The eastern hilly tract is also covered by thick forests at some places and is a major producer of jowar among the agricultural crops and teak and bamboo among the forest products. It is a comparatively backward tract inhabited chiefly by various scheduled tribes.

Drainage

There are four main rivers in this district, namely The Tapi, The Kim, the Purna and the Ambika. Among them the Tapi is the principal and largest river of the district. It rises from the springs in the range of Satpuda hills of Madhya Pradesh State. Tapi enters on its last stage, the passage of fifty miles in a direct line or including wide meanders, of nearly ninety miles across the Surat plain to the Arabian Sea. The Purna River, with a westerly course of about fifty miles across the Surat district, joins the sea ten miles south of the Mindhola. The Kim River, with a course of seventy miles in length and drains the northern area of Surat district. It is raising in the Rajpipla hills and joins the Gulf of Khambhat. The Ambika River, after winding course of about forty miles towards the south-west, joins the Arabian Sea fifteen miles south of the Purna. This stream rising in the Bansda hills flow west-ward in two widely separated channels draining the lands of Chikhli and Jalalpur. All the rivers of this district are running from east to west to meet the Arabian Sea.

Climate

The climate of this district is characterized by a hot summer and general dryness except in the coastal region. The district has semi- arid climate with three distinguished season. It is characterized by comparatively humid summer and monsoon seasons, mild winter and high rainfall. The Humidity is higher in the coastal region than in the interior. During the monsoon season the relative humidity generally exceeds 70 percent. There is a decrease of relative humidity after the withdrawal of the south-west monsoon. The driest part of the year is the period from November to April when the relative humidity in the afternoons are less than 45 percent.

The cold season December to February is followed by the hot season from March to May. June to September is the south-west monsoon season and two months October and November form the post monsoon season.

The skies are mostly heavily clouded or overcast during the south west monsoon season. Cloudiness decreases rapidly in the post-monsoon months. During the rest of the year skies are generally clear or lightly clouded.

Humidity (Average of Last 3 Years)

Sr. No.	Taluka	Humidity (%)	
		Minimum	Maximum
1	2	3	4
1	Olpad	11.0	96.0
2	Mangrol	12.0	97.0
3	Umarpada	14.5	93.0
4	Mahuva	8.7	98.0
5	Mandvi	11.8	98.2
6	Kamrej	11.2	96.0
7	Choryasi	10.3	98.0
8	Palsana	14.5	98.0
9	Bardoli	10.6	96.0

Source: Comprehensive-District Agriculture Plan of Surat- 2012, Directorate of Agriculture.

Above table gives taluka wise data of minimum and maximum humidity of district. Mahuva taluka has minimum humidity, which is 8.7% and Mandvi taluka has maximum humidity, which is 98.2%. Average minimum and maximum humidity of the district is 11.62% and 96.68% respectively.

(1) Temperature

After February temperature being increase steadily. April and May are the hottest months of the year where temperature ranges from 40˚C to 46˚C. The wind velocity varies from 4 km/hr to 10 km/hr. The normal temperature varies from 13˚C to 43˚C. The December and January are the coldest months.

Year wise Maximum and Minimum Temperature

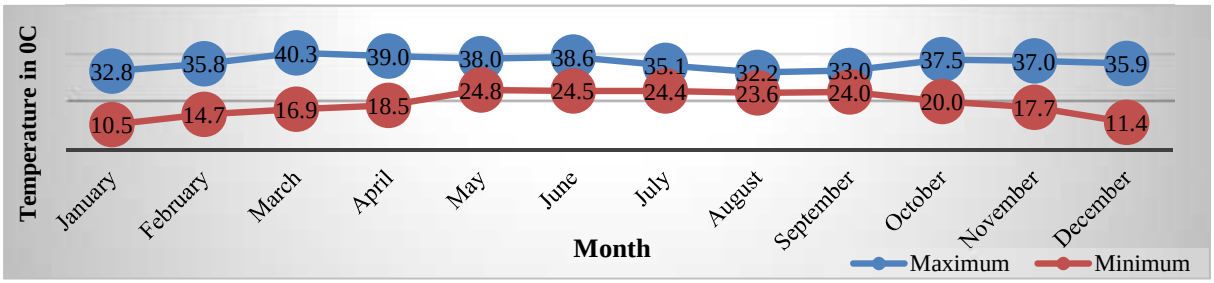

(In Centigrade)

Sr. No.	Year	Temperature	
		Maximum	Minimum
1	2	3	4
1	2001	37.7	13.1
2	2002	37.1	13.5
3	2003	38.9	14.7
4	2004	44.2	9.6
5	2005	42.8	9.0
6	2006	40.4	11.5
7	2007	42.6	12.2
8	2008	41.0	8.2
9	2009	42.8	12.1
10	2010	42.9	10.5

Source: (1) Statistical Abstract of Gujarat State - 2012, Directorate of Economics and Statistics,
(2) Statistical Abstract of Gujarat State - 2007, Directorate of Economics and Statistics,
(3) Statistical Abstract of Gujarat State - 2005, Directorate of Economics and Statistics.

The statement above gives data of year wise maximum and minimum temperature in the district for the years 2001 to 2010. During the years 2001 to 2010, the highest maximum temperature is recorded at 44.2^0 centigrade in the year 2004 and lowest minimum temperature is 8.2^0 centigrade in the year 2008. Average maximum and minimum temperature of the Surat district is 41.04^0 centigrade and 11.44^0 centigrade respectively.

Monthly Maximum and Minimum Temperature of the District for the Year 2011

Source: Statistical Abstract of Gujarat State - 2012, Directorate of Economics and Statistics.

The statement above shows monthly maximum and minimum temperature in the district for the years 2011. It can be seen that maximum temperature in the district reaches to 40.3^0 centigrade in March while minimum temperature in the district reaches to 10.5^0 centigrade in January.

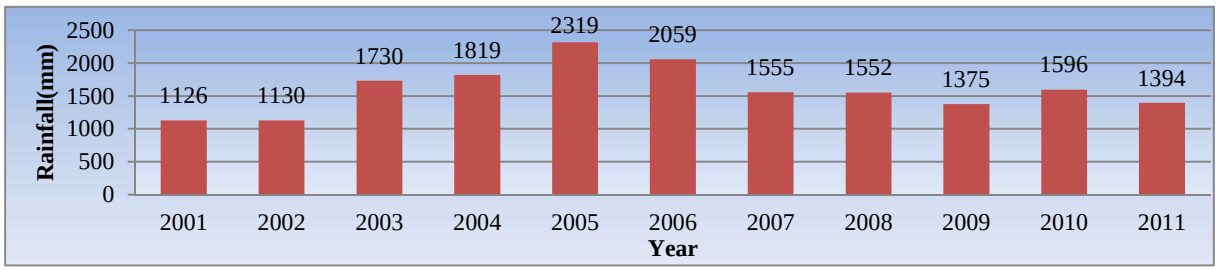

(2) Winds

Winds are generally light and moderate in summer months of March, April and May. In the summer season the winds are pre-dominant in the directions between south-west and north-west. In the south-west monsoon season June to September they become stronger. Westerly to south westerly winds prevail during south west monsoon season. In October and during the months of January and February the wind is from directions between west and north-east direction. In between, the months of November and December, Surat district experiences winds from directions between north and east. Some of the cyclonic storms or depressions from the Arabian Sea in May and in the post-monsoon season reach the neighborhood of the district causing heavy rain and gusty winds. Thunderstorms occur on some days during the summer and monsoon months.

(3) Rainfall

Records of rainfall in the district are available for seven stations for a fairly long period. The district receives the rainfall through south-west monsoon which normally starts from middle of June. July and August are the richer months of rainfall. The average rainfall varies from 1,500 mm to 1,700 mm however, scanty and uneven rainfall pattern is not uncommon.

Year wise Rainfall

Source: Socio-Economic Review of Gujarat state 2011-12, Directorate of Economics and Statistics.

The above graph indicates rainfall for the year 2001 to 2011 and in the year 2005 there is maximum rainfall found, which is 2,319 mm. The lowest rainfall occurs during the year 2001, which is 1,126 mm. The average rainfall during the year 2001 to 2011 is 1,605 mm.

In decade rainfalls trends shows minimum in initial stage and it is maximum in the middle years of the decade then again it declines in later years.

Economic Resources

Economic resources are an important means for the subsistence of the working people in the district. The details about economic resources of important sectors are given in brief.

(1) Forestry

According to the figures available from the Forest Department, for the year 2010-2011 out of total area of 4,549.00 sq. km of the district, an area of about 476.65 sq. km is covered by forest. It accounts for 2.49 percent of the total forest area of the state. The forest area of the district constitutes 10.48 percent of total geographical area of the district. Forest worth is found only in hillock. The forest of the district is mainly of mixed deciduous type and is rich in flora and fauna. It mostly contains teak and bamboo trees. There are many other species too, viz., Rayan, Karanj, Jambu, Amla, Behda, Sarsado, Dhawada, Semlo, Bili, Bordi etc. Eastern part of the district is very rich with forest area. There is huge potential of establishing new Saw Mills for manufacturing teak wood products, wooden furniture products and handicraft items of wood from other types of wood and Ayurveda medicines from the medicinal plants on the micro and small scale level.

Classification of Forest Area

(In sq.km)

Sr. No.	Area	Year 2010-11
1	2	3
1	Reserved Forest	461.74
2	Protected Forest	0.06
3	Unclassified Forest	14.85
4	Total Forest Area	476.65

Source: Gujarat Forest Statistics, 2010-11, Forest Department.

The above table shows the classification of forest area of Surat district. Surat district is mainly classified into three types of forest area; one is reserved forest, second is unclassified forest and third is protected forest. Out of total forest area 96.87% area is used for reserved forest.

(2) Minerals and Mining

The known mineral wealth of Surat district is substantial though less diversified than in a few other districts of the state. The geology of this district mainly composed of Deccan Trap. Some tracts of Alluvium, Blown sand, etc. and sub-Nummelitic Beds are observed in the western part of the district. The main portion of the district is alluvial plain. The pattern of mineral production is, therefore, simple. Details of minerals in the district are given below:

Production of Minerals

(In Matric.Tonnes)

Sr. No.	Name of Minerals	Production During Year					
		2005-06	2006-07	2007-08	2008-09	2009-10	20010-11
1	2	3	4	5	6	7	8
A	**Major Minerals**						
1	Lignite	1721333	1923973	2508964	2645312	2883680	3466713
2	Lime Stone	123809	133610	123116	151136	162129	167940
B	**Minor Minerals**						
1	Black Traps	NA	NA	NA	1974160	2978554	3156725
2	Sand	NA	NA	NA	2679110	3373241	9794385
3	Common Clay	NA	NA	NA	2489636	1232000	1483000
	Total	**1845142**	**2057583**	**2632080**	**9939354**	**10629604**	**18068763**

Source: (1) Statistical Abstract-2010, Directorate of Economics and Statistics,
(2) Statistical Abstract-2012, Directorate of Economics and Statistics,
(3) District Statistical Report, 2010-11, District Statistical Office, Surat.

Above statement shows mineral production in the Surat district for the years 2005-06 to 2010-11. It can be seen that lignite and lime stone have been the major mineral products of the district in terms of production for the year 2005-06 to 2010-11. There is a continuous increased in total mineral products from the year 2005-06 to 2010-11, while production of minor minerals such as black trap, sand and common clay are also increased in the year 2010-11.

(3) Soil and Cropping Pattern

(a) Soils

In Surat district, four types of soils are found namely khar lands, black cotton soil, light soils and gorat soil. The Khar and Khajan types of soils are mainly found in coastal areas whereas the central part has the black alluvial and light soils. The rocky type of soil is also found in some north-eastern parts. Khar lands followed by black cotton and light soils. The gorat soils are found on the banks of the rivers passing through the district. All the four soils of the district have been formed the alluvial deposits. Black cotton soils are known for their fertility and it is mainly found in Kamrej, Palsana, Chorasi, Mangrol and Mandvi. The gorat soils are found on the banks of both sides of the four main rivers in the district running from east to west to meet the Arabian Sea. The strip of land about 1-2 miles wide on the sea coast and the Khar land soils which are though very deep almost barren due to their high salt content. These lands are mainly found in the talukas of Olpad and Chorasi lying on the Arabian Sea**.**

The Soil in Surat district in general pH is neutral. Electricity conductivity is low too. Organic Carbon, Nitrogen and Phosphorus content of the soil is medium. Potash is hing. So overall, the soil fertility indices are good from the point of view of agriculture.

(b) Cropping Pattern

The soil health related problem of Surat district are varying with the physiographical unit. In eastern hilly belt, the soils are shallow and poor in fertility. The mid plane areas where sugarcane and paddy are the major crops, the problems of water logging and secondary salinization are acquiring menacing proportions, while in coastal area, the soils are salt affected with poor physical condition. Apart from this, imbalance in use of fertilizer along with limited application of organic is resulting in serious soil health related problems.

In the district food and non-food crops grown can be grouped under two main heads Kharif and Rabi. The Kharif or the rained crops are sown in June-July and harvested in October-November. The Rabi or irrigated crops are sown in September-October and harvested in February-March. The main crops of this district are jowar, bajri, wheat, rice, maize, groundnut, cotton, sugarcane, paddy, soyabeen, chillies and fodder. Among the horticulture crops, mango, banana, brinjal, okra and cucurbit occupy minority of the area.

This district has wide range of cropping systems like paddy-sugarcane, green manure–sugarcane, paddy-wheat, paddy-fallow, sorghum-pigeon pea, paddy-pulses, cotton-fallow, sorghum-wheat, pigeon pea-wheat, fodder-vegetables and vegetable-paddy. In eastern hill and undulating part, only rain fed farming is followed.

(4) Land and Land use Pattern

Total geographical are of the district is about 4 lakhs hectares. It is noteworthy to find that 76% of the geographical area is under cultivation in the district. 6 taluka out of 9 talukas have about 80% of their geographical area under cultivation. However, the coverage of forest area is only 9% (Olpad, Kamrej, Chorasi, Palasana and Bardoli taluka have no forest area) hence there is need to increase the coverage of forest. The district has only 1% area as waste land and 4% under pasture land from geographical area.

Area, Production and Productivity of Different Crops of the District during the Year 2010-11

Sr. No.	Crop	Area (hectares)	Production (tonnes)	Productivity (qua/hec)
1	2	3	4	5
1	Sugarcane	95,000	68,02,000	716
2	Paddy (irrigated)	34,359	1,20,600	35
3	Paddy (unirrigated)	12,085	23,445	19
4	Summer paddy	13,500	48,263	36
5	Sorghum	5,041	9,346	19
6	Pulses	9,775	7,253	7
7	Green gram	4,733	3,858	8
8	Udad	683	307	4
9	Soybean	12,724	12,024	9
10	Wheat	6,250	22969	37
12	Banana	10,889	6,96,896	640
13	Mango	7,365	58,920	80
14	Sapota	2,044	18,396	90
15	Papaya	240	14,400	600
16	Okra	5,390	59,290	110
17	Brinjal	4,928	1,03,488	210

Source: Comprehensive - District Agriculture Plan of Surat -2012, Directorate of Agriculture.

Production of sugarcane is highest in Surat district rather compared to other district of Gujarat State. Irrigated paddy crop has used 34,359 hectares land even though its production and productivity lies very low compared with sugarcane's production and productivity. However banana and papaya fruits crops have very little usage of land but their production and productivity lies IInd and IIIrd rank.

The total land in the district was 4,549 sq. km during 2009-10. The land classification according to the different uses for the rural areas of the district is given below as per the information collected for the Village Directory.

Land Classification of Rural Areas

(In hectares)

Sr. No.	Classification	Area	% of Coverage
1	2	3	4
1	Forests	32869.79	8.94
2	Area Under Non Agriculture Uses	15665.59	4.26
3	Barren and Un-cultivable Land	35455.64	9.65
4	Permanent pastures and Other Grazing Lands	22211.58	6.04
5	Land Under Miscellaneous Tree Crops etc.	1037.18	0.28
6	Cultivable Waste Land	7184.97	1.96
7	Fallow Lands other than Current Fallows	4344.51	1.18
8	Current Fallows	4739.07	1.29
9	Net Area Shown	243972.8	66.39
	9.1 Total Irrigated Land Area	172344.6	46.90
	9.2 Total Un-Irrigated Land Area	71628.17	19.49
	Total (1-9)	**367481.13**	**100.00**

Source: Village Directory, 2011.

Above table shows the land classification of rural areas. Forest land in the district is 32,869.79 hectares. We see that in the district 8.94 % area is covered under the forest area, 46.90 % is covered under the irrigation and 19.49 % area is un-irrigated.

(5) Tenancy

There was no separate Act on tenancy in the former Bombay State before 1939. There were provisions of Section 83 of Land Revenue Code and Mamlatdar Court law only. The tenant was not secured of his tenancy rights in the Act. This tenancy lease was considered yearly and had to pay tenancy as per tradition or according to the agreement made with the land owner. In order to protect the tenants, The Bombay Tenancy Act, 1939 came into force in the erstwhile Bombay State.

After the independence of the country, it was necessary that the country becomes self-sufficient in agricultural production. It can be done only when the tillers of the land should have some definite rights over the land. With a view to effect, control on efficient utilization of agricultural land and also to protect the tenants further and also to accept a definite policy and view for the country on agricultural land, The Bombay Tenancy and Agricultural Land Act, 1948 was enacted and it was brought into force since then.

The Act of 1948 was amended five times. An important provision of 'Farmer Day' was inserted in the Act on Dt.01-08-1956. According to this provision, if any person legally tilled the land of other person on Dt.01-04-1957, he was entitled to purchase the said land. Even though after Gujarat State was separated from Bombay State in 1960, the said act also applied to it and at present it called as Gujarat Tenancy and Agricultural Lands (Amendment) act, 1997.

Tenant means the person, who held land on lease viz,

(1) Tenant as per Section 4;
(2) Protected tenant
(3) Permanent tenant
(4) The person who continued to possess the land with or without the consent of the land owner after appointed date and up to specified date or it is considered that he continued the possession of the land.

In Gujarat state as on Dt.31-03-2011, total of 10,26,635.6 hectares of land has been released and distributed to total 12,61,758 beneficiaries under the Bombay Tenancy and

Agricultural Land Act, 1948. Among the beneficiaries 1,74,366 were from Scheduled Castes, 2,79,672 from Scheduled Tribes and 8,07,720 beneficiaries were from other classes.

In Surat district, all 1,34,247.2 hectares of land have been released and distributed to total 1,59,069 numbers of beneficiaries. Among these 26,157 belongs to Scheduled Castes who were allotted 17,327.2 hectares of land, 1,27,698 belong to Scheduled Tribes who were allotted 1,09,696.8 hectares of land and 5,214 beneficiaries were under 'Others' category who were allotted 7,223.2 hectares of land.

(6) Agriculture

Livelihood of millions of people of India depends on agriculture which by and large, influenced by locally available natural resources. "Krishi Mahotsav" in Gujarat launched on the auspicious occasion of Akshay Tritiya every year. It brought about revolution of sorts in a predominantly agrarian country like India. The month-long Mahotsav covered all the villages of each district and creating awareness about the advantage of standard seeds and its optimum use.

In Surat as in other districts of Gujarat, agriculture happens to be the main source of subsistence for the majority of people. According to the 2011 Census, 17.05 percent of the total working population of the district was engaged in agriculture, as against 49.61 percent in the State as a whole. The table below gives the number of persons working as cultivators and agricultural labourers in 2011.

Number of Persons Working as Cultivators and Agricultural Labourers

Sr. No.	Sector	Total	Male	Female
1	2	3	4	5
1	As Cultivators	109549	90357	19192
2	As Agricultural Labourers	325739	174685	151054
	Total	**435288**	**265042**	**170246**

Source: Primary Census Abstract-2011.

Agriculture is the main occupation of the rural folk of the district and they grow jowar, cotton, rice, groundnut, sugarcane, wheat, fruits and vegetables as the principal crops.

(a) Area under Major Crops

This district has wide range of cropping systems like paddy-sugarcane, green manure sugarcane, paddy-wheat, paddy-fallow, sorghum-pigeon pea, paddy-pulses, cotton- fallow, sorghum-wheat, pigeon pea-wheat, fodder-vegetables and vegetable–paddy.

The chart below gives production area under crops for the years 2007-08 and 2010-11 for Surat district.

Chart-6.1

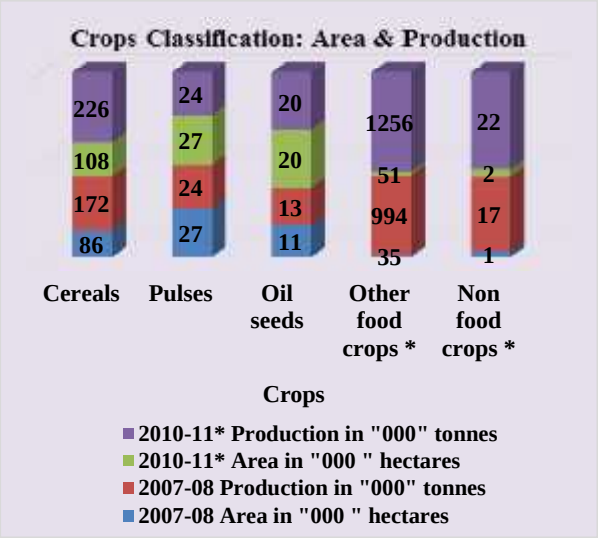

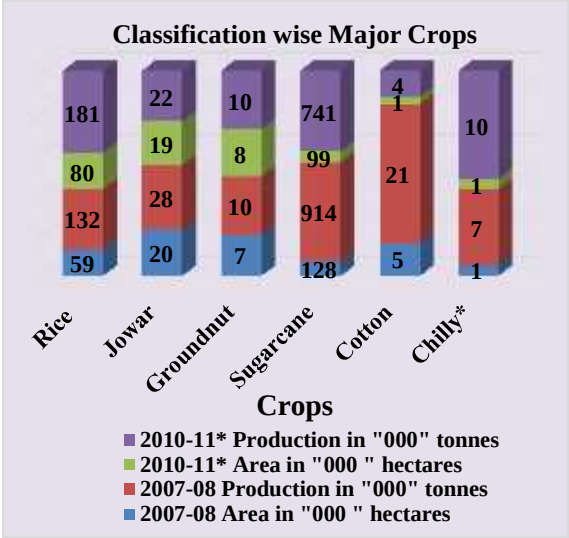

Chart-6.2

Source: (1) Statistical Abstract-2012, Directorate of Economics and Statistics.
(2) Horticultural Department
Note:* Forecast data

From the above chart 6.1 we can see that the area under production of cereals, oil seeds, other food crops and non-food crops are increased in the year 2010-11 as compared to the year 2007-08 and area under production of pulses are same for both of the years.

From the above chart 6.2 we may predict that the area under production of rice and groundnut are increased in the year 2010-11 as compared to the year 2007-08, while area under production of jowar, sugarcane and cotton are decreased in the year 2010-11 as compared to the year 2007-08. We can see that the area under production of chilly is same both of the years.

(b) Average yield per Hectare

The average yield per hectare of the principal crops in the district during the year 2007-08 and 2010-11 is shown below.

Average Yield per Hectare

(In kg)

Sr. No.	Name of Crop	Years	
		2007-2008	2010-11
1	2	3	4
1	Sugarcane	7141	7493
2	Bajra	2500	1000
3	Rice	2237	2268
4	Wheat	2200	3048
5	Cereals	2000	2100
6	Rapes and Mustard	2000	1568
7	Foodgrains	1759	1854
8	Groundnut	1429	1244
9	Jowar	1400	1182
10	Oil seeds	1182	994
11	Maize	1000	1833
12	Gram	1000	1380
13	Pulses	889	878
14	Cotton	714	518

Source: Statistical Abstract -2012, Directorate of Economics and Statistics.

Above table shows that the average yield per hectare for the crop of sugarcane, rice, wheat, cereals, food grains, maize and gram have increased significantly in 2010-11 as compared to the year 2007-08. While average yield per hectare for the crop of bajra, rapes and mustard, groundnut, jowar, oil seeds, pulses and cotton have decreased in 2010-11 as compared to the year 2007-08. The average yield per hectare for the crop of bajra has drastically decreased in the year 2010-11.

(c) Production & Productivity of Horticultural Crops 2005-2011

Data for production & productivity of horticultural crops for the years 2005-06 to 2010-11 with respect to different crops in Surat district is given in the following table.

Production & Productivity of Horticultural Crops 2005-2011 (Estimated Area)

(Area in Hectares, Production in M.T., Productivity M.T/Hec.)

Sr. No.	Crops		Year				Average
			2005-06	2007-08	2009-10	2010-11	
1	2	3	4	5	6	7	8
1	Fruit Crops	Area	20940	19295	21770	22670	21169
		Prod	726410	760566	829760	886643	800845
		Pvty	34.69	39.42	38.11	39.11	37.83
2	Vegetable Crops	Area	21453	15459	19520	27997	21107
		Prod	276665	233929	258636	369266	284624
		Pvty	12.9	0	13.25	13.19	9.83
3	Spices Crops	Area	3615	1361	1574	1716	2066
		Prod	12870	16695	19571	21777	17728
		Pvty	3.56	12.27	12.43	12.69	10.23
4	Flower Crops	Area	890	476	789	900	764
		Prod	6129	3378	6881	10557	6736
		Pvty	6.89	7.1	8.72	11.73	8.61

Source: Horticultural Department.

The above table shows average production of fruit crops in last four years is 8,00,845 M.T which is highest in all horticultural crops, while average production of flower crops is 6,736 M.T which is the lowest among all crops.

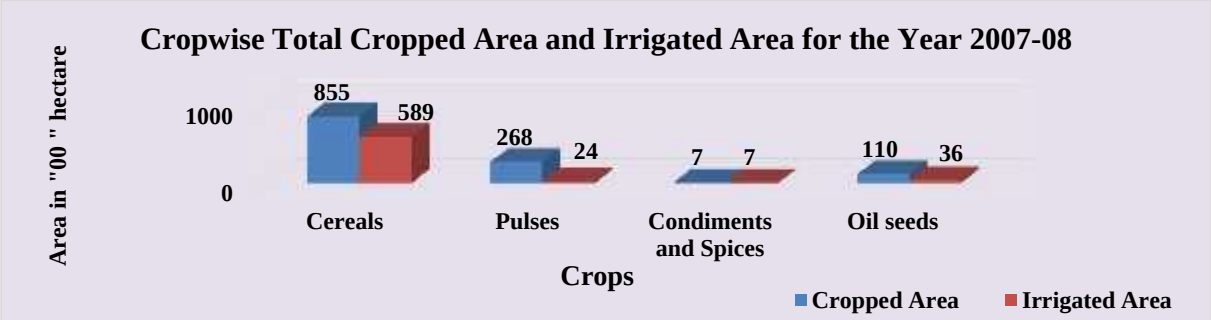

From the table we can see that in last four years fruit crops average productivity is 37.83 M.T/Hec and flower crops average productivity is 8.61 M.T/Hec which high and less in among all horticultural crops respectively. The average area used for production of fruit crops is 21,169 hectares that is highest and flower crops used average area is 764 hectares that is lowest among all crops in last four years.

(7) Irrigation

In most of the taluka of the district both canal and tube well irrigation facilities are available. Availability of the canal water is good and it is available for full cropping period. As far as underground water resources are concerned, 20 percent of the water off the coast and most of the water along the coast is saline and thus making its use with prudence for crop production.

(a) Area Irrigated by Crops

Source: Irrigation in Gujarat 2011-12, Directorate of Economics and Statistic.

Above chart shows that for condiments and spices, out of total cropped area 100% area is irrigated, followed by 68.88% for cereals, 32.72% for oil seeds and only 8.95% for pulses.

(b) Area Irrigated by Source

The area irrigated by different sources in the district is presented below for the year 2001-02 to 2009-10.

Area under Irrigation by Source

(In '00 hectares)

Sr. No.	Source of Irrigation	Year				
		2001-02	2003-04	2005-06	2007-08	2009-10
1	2	3	4	5	6	7
1	Govt. Canals	1569	1625	1643	1361	1283
2	Wells	687	791	848	614	353
3	Tanks	4	-	0	0	14
4	Other	6	4	3	0	70
	Total	**2266**	**2420**	**2494**	**1975**	**1720**

Source: (1) Statistical Abstract-2012, Directorate of Economics and Statistics,
(2) Statistical Abstract-2010, Directorate of Economics and Statistics,
(3) Statistical Abstract-2007, Directorate of Economics and Statistics,
(4) Statistical Abstract-2005, Directorate of Economics and Statistics,
(5) Village Directory, 2011.

The above figures indicate that Government Canals are the main source of irrigation in the district, followed by the Wells. Also, it is seen that total area under irrigation was increased in 2001-02 to 2005-06, but decreased in the year 2007-08 and 2009-10 as compared to its previous years.

(8) Animal Husbandry

Livestock–particularly buffalo, cattle and goats constitute the main animal husbandry component in the farming system of the district. The expanding market with rise in demand for diverse animal product and easy access to markets is added opportunities for further strengthening this allied sector in the district, while utilizing the existing network of infrastructure and support services. This sector's vast potential can be harnessed for growth in generating employment, income and restoring soil health. The emerging modern technology for processing and marketing will give the needed boost to this sector. Farmers of Surat district have a long tradition of rearing animals for milk production. Dairy farmer provide employment to large number of landless families area.

Cow and buffalos are the main cattle in the district. The other domestic animals are goats and sheep. Looking at the number of cows and buffaloes in Surat district, there is potential for producing organic manures and promote organic farming in the district. However the task is not easy as the farmers will have to be convinced first regarding of using organic manures and practice organic farming. They need to understand it in long term perspective. Also the needs for integrating the animal husbandry with promotion of organic farming need to be understood properly.

(a) Livestock

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock census of 2003 and 2007, the livestock population in the district is indicated below:

Livestock

Sr. No.	Livestock population	Year		% age(+)/(-) in 2007 over 2003
		2003*	2007	
1	2	3	4	5
(A)	Total Livestock	1106596	1085045	-1.9
1	Cattle (cross breed)	66324	143628	116.6
	(a) Male over 2.5 years	6354	19571	208.0
	(b) Female over 2.5 years	34347	61746	79.8
	(c) Young stock	25623	62311	143.2
2	Cattle (Indigenous)	337420	297781	-11.7
	(a) Male over 3 years	117874	114616	-2.8
	(b) Female over 3 years	114818	93514	-18.6
	(c) Young stock	104728	89651	-14.4
3	Buffaloes	408009	423065	3.7
	(a) Male over 3 years	8065	9376	16.3
	(b) Female over 3 years	241271	237587	-1.5
	(c) Young stock	158673	176102	11.0
4	Sheep	3526	2041	-42.1
5	Goats	208279	200495	-3.7
6	Horses and Pines	304	348	14.5
7	Camels	45	12	-73.3
8	Pigs	23963	5369	-77.6
9	Other Livestock	58726	12306	-79.0
(B)	Poultry	953965	1269980	33.1

Source: (1) Statistical Abstract-2005, Directorate of Economics and Statistics,
(2) Statistical Abstract-2010, Directorate of Economics and Statistics,
Note: * Means including five talukas of Tapi.

The above table reveals that as compared to 2003 livestock census cattle (cross breed), buffaloes, horse & pines have increased in the year 2007 and cattle (Indigenous), sheep, goats, camels, pigs and other livestock have decreased in the year 2007 as compared to the year 2003. Poultry birds have increased in 2007 as compared to the year 2003. But, all over livestock population have decreased in 2007 by 1.9%.

(b) Agricultural Implements

According to the livestock censuses conducted in the State, the comparative data for agricultural implements in the district for the years 2003 and 2007 are shown in the below statement.

Agricultural Implements

Sr. No.	Name of Agricultural Implements	Year	
		2003	2007
1	2	3	4
1	Ploughs		
	(a) Wooden	23316	53184
	(b) Iron	10216	11852
	(c) Cultivator	-	9103
2	Carts	11896	17655
3	Oil engine	10218	5456
4	Electric Motor & Pump	11982	11441
5	Tractor	5527	-
6	Drip set	728	-
7	Sugarcane Crushers	44	648
8	Sprinkler set	369	-
9	Ghani	24	355

Source: (1) Statistical Abstract-2005, Directorate of Economics and Statistics,
(2) Statistical Abstract-2010, Directorate of Economics and Statistics,
(3) District Statistical Report 2009-10, District Statistical Office.

The number of agricultural implements except oil engine and electric motor & pump all agricultural implements has shown increasing trend during the year 2007 as compared to the year 2003.

(9) Fisheries

The fisheries sector has played an important role in the national economy through food supply, employment generation and income. The district has a coastal-line of about 83 km. Fisheries of Surat district are divided into three broad categories viz. marine, estuarine and fresh water fisheries. Marine fisheries of the district cover the entire coastal region of the Gulf of Khambhat from the Kim in the north to Damanganga in south. The estuarine fisheries are spread over the tidal portions of the all rivers of the district. Fresh water fisheries are confined to such portion of these rivers within the district. The main fishes of this district are Shark, Zinga, Magra, Vehar, Hilsha and Mandeli.

Fish culture is being accepted by the farmer as one of the subsidiary occupation in the district. The fish farming is Surat is mostly being done in village / panchayat ponds on lease. The added advantage of village pond fishery is that cattle visiting village ponds add fertilization in the shape of cow dung to the pond resulting in production of natural food for fish.

The bottle necks of fisheries are poor infrastructure for fish seed production and genetic up gradation and lack of extension services. Different programmes / schemes have been launched by Fisheries Department to cater to the needs of fish farmers. These activities are proposed to be strengthened under the plan for further development especially skill up gradation, fingerling production and adoption of intensive / poly culture fish farming.

Fisheries Activities

Sr. No.	Item	Year	
		2007-08	2009-10
1	2	3	4
1	Total number of fishing boats	2544	1019
2	Fish production (in tonnes)	20997	-
3	Number of active fishermen	23594	23594

Sr. No.	Item	Year	
		2007-08	2009-10
1	2	3	4
4	Number of fishermen primary co- operative societies	38	38
5	Membership of fishermen's primary co-operative societies	11108	11108
6	Paid up share capital of fishermen's co- operative societies	112233	112233

Source: District Statistical Report 2009-10, District Statistical Office.

The fisheries sector has played an important role in the national economy through food supply, employment generation and income.

(10) Industry

Surat is mainly known for its textiles and diamond processing industries. The district is emerging as a potential hub for IT/ITeS sector in Gujarat. Hazira and Magdalla Ports in the district provide logistic support to industrial operations in the state.

Industrial development in Surat district could be attributed to the presence of a large number of diamond processing, textiles and chemical & petrochemical industries. There are over 41,300 small and medium industries functioning in the district. It is also known as synthetic capital of India. Surat–The synthetic capital of India hosts over 45,000 powers looms and provides over 7 lakh jobs. It contributes 18% to the total manmade fiber exports and 40% of manmade fabric production in India. Maximum number of (nearly 24,000 units) in small and medium enterprises is related to textile industry in the district, followed by repairing and service industry with more than 11,000 units.

Most of the small scale industries are located in Chorasi (Western Surat), Mangrol and Olpad (Northern Surat), Mandvi (Central Surat) and Palsana (Southern Surat) tehsils of the district. Surat has been very successful in attracting a sizeable amount of Foreign Direct Investment (FDI) in various sectors like energy, oil and petroleum. A significant investment of INR 3,000 crore (USD 726 million) in Hazira LNG terminal project is one of the largest Greenfield FDIs in India.

Statement below gives major industrial group with number of establishments and average daily employment there in at the end of years 2009-10 and 2010-11 for the district.

Distribution of Important Industrial Establishments by Major Industrial Group

Sr. No.	Group Name	Years			
		2009-10		2010-11

Special Economic Zone

Gujarat has the distinction of being the first state to enact the Special Economic Zone Act-2004. SEZs is growth engines that can boost manufacturing, augment exports and generate employment. The Government has enacted Special Economic Zones Act-2004 in order to provide hassle free operation regime and encompassing state of the art infrastructure and support services. Board of approval in Ministry of Commerce and Industries, New Delhi has accorded approvals to 60 SEZs in Gujarat at the end of March-2011. The Total proposed investment by SEZ Developers is around Rs. 2,67,373.45 crore.

SEZ in Surat

(As on Oct-2010)

(11) Trade and Commerce

The major commodities manufactured in Surat district are art silk cloth, polyester cloth, fertilizer, natural gas and plastic and PVC products. Finished diamonds after cutting is also a major item of export from the district.

(a) Retail Trade

Retail trade is carried on by a large number of establishments in the urban and rural areas and caters to the needs of local inhabitants. These traders usually obtain their goods on credit generally from local wholesalers and settle bills periodically. Their stock in trade is limited and generally depends upon their financial condition and local demand. Retailers quickly replenish items which are much in demand among the people.

Source: - (1) Basic Statistical Returns, Volume-39, March-2009, Banking Statistics,
(2) Basic Statistical Returns, Volume-39, March-2010, Banking Statistics.

Above statement gives occupation wise classification of outstanding credit of scheduled commercial banks for Surat district in the year 2009 and 2010. It can be seen that total outstanding credit for Surat district was Rs. 1,42,65,78,39,000 total outstanding credit with number of accounts being 2,86,597 in the year 2009 and in the year 2010 total outstanding credit was Rs. 1,84,96,86,95,000 with 3,08,469 number of accounts. It can be seen that outstanding credit and number of accounts both of increasing in the year 2010 compare to 2009.

Population Group-wise Number of offices of Public Sector Banks in Surat

Source: (1) Branch Statistics-volume-3: March-2002, Reserve Bank of India,
(2) Branch Statistics-volume-3: March-2009, Reserve Bank of India.

* **Population groups of the banked centres** presented in this Volume are based on the 2001 census. The population groups are defined as under:
a) 'Rural' group includes all centres with population of less than 10,000.
b) 'Semi-urban' group includes centres with population of 10,000 and above but less than 1 lakh.
c) 'Urban' group includes centres with population of 1 lakh and above but less than 10 lakh.
d) 'Metropolitan' group includes centres with population of 10 lakh and more.

*** Branches of Banks** refer to those offices which are engaged in either;
Banking business (i.e., either accepting deposit and/or offering credit to their customer); or
1. Banking and foreign exchange business; or
2. Administration, banking and foreign exchange; or
3. Administration and banking; or
4. Administration and foreign exchange; or
5. Only foreign exchange business; or
6. Non-scheduled banks doing banking business.

*** Bank Offices** comprise of branches doing banking business (i.e., either accepting deposit and/or offering credit to their customers) as well as administrative offices.

*** Public Sector Banks** a) SBI and its 6 Associates b) 19 Nationalized Banks
c) Other Public Sector Banks

* **Commercial Banks** refer to both scheduled and non-scheduled commercial banks which are regulated by Banking Regulation Act, 1949.

- **Lead bank:** Under Lead Bank Scheme formulated in 1969, every public sector bank and Jammu and Kashmir Bank Ltd. is allotted a district in which it functions as a lead bank of the district. In that role, the bank assists in the overall development of that particular area by collecting certain data and formulating district credit plan, etc.
- Bank of Baroda is the lead bank of Surat District.

(12) Transport and Communication

Transport and Communication facilities are considered as administrative necessity as well as a public convenience. Moreover; a well-knit transportation system is a pre-requisite for the social and economic development of any district. The district has a good network of transportation facilities. Towns as well as most of villages in the central and western parts of the district

are connected by national and state highways, other roads and railways. Surat is the prominent industrial centre of the district as well as of the state. Surat is also an intermediate port, handling foreign traffic. Domestic airports also adorn the district.

(a) Road

The linking of one place with other by road is very essential to provide good transport system. According to the classification of road, made by Roads and Buildings Department, Government of Gujarat, Gandhinagar road length in the district by category is mentioned below for the years 2006 to 2010.

Surat is well connected to various locations through national and state highways. Connectivity to major industrial centers: NH-8 connects Surat with Mumbai (307 km), Delhi (1,034 km), Kolkatta (1,676 km), Chennai (1,371 km) and Hyderabad (824 km). Distance to other major cities of Gujarat: Jamnagar (549 km), Rajkot (461 km), Bhavnagar (447 km), Valsad (77 km), Ahmedabad (278 km) and Vadodara (167 km).

Road Length of Different Categories

(In Kilometers)

Sr. No.	Years	National Highway	State Highway	District Roads	Village Approach Roads	Total Surfaced Roads	Total Unsurfaced Roads	Total Roads
1	2	3	4	5	6	7	8	9
1	2006	174	1028	1524	1289	4015	113	4128
2	2007	248	1010	1484	1245	3987	93	4080
3	2008	248	989	1468	1251	3956	93	4049
4	2009	194	596	931	733	2454	66	2520
5	2010	180	560	928	731	2399	63	2462

(3) Statistical Abstract-2012, Directorate of Economics and Statistics.

(b) Railway

There are 33 villages having railway facilities in Surat district. Total length of railway line in the district is 380 kms. There are 14 stations on broad gauge line and 39 stations on meter gauge line. Bombay Delhi broad gauge line passes through the district.

Almost all the talukas of Surat are well connected with the rail network. Surat is well connected with Valsad, Vapi and Mumbai towards its south and with Bharuch, Vadodara and Ahmedabad in the north.

Taluka wise Railway Station

Sr. No.	Name of Taluka	No. of Railway Station
1	2	3
1	Olpad	4
2	Mangrol	9
3	Umarpada	3

5	Chorasi	5
6	Palsana	4
7	Bardoli	4
8	Mahuva	1
9	Kamrej	-
District Total		**30**

Source: District Statistical Report, 2010-11, District Statistical Office.

(c) Ports

The district has 3 important ports. Among them Hajira and Magdalla are intermediate ports whereas Bhagwa is minor port. All the ports are operative in all seasons. Fertilizer, sulphur, iron scrapes and rock phosphate are the main items imported at these ports whereas salt, betonies, onion and oil cake are principal items of exports through these ports.

Magdalla & Hazira Ports in Surat have good rail and road connectivity. Magdalla port is 2 km away from the state highway and 15 km away from NH-8. Hazira Port in Surat has close proximity to the high speed dual carriageway which is under construction. The port is well connected with main Mumbai–Ahmedabad-Delhi broad gauge railway line. The nearest airport is in Surat. The proposed Mumbai–Delhi Freight Corridor is expected to be a major driver for industrial growth of Hazira Port.

- **Hazira Port**

Hazira is known as the **'gateway port'** to serve the hinterlands of north, west and central India as it is situated in the midst of one of the most industrialized Areas in the country. It is a deep-water, all weather and direct berthing port**.** The existing industrial portfolio of Hazira includes industrial activities such as petrochemicals, fertilizers, heavy engineering, steel, energy and port related activities. More than 20 large and medium sized companies are located in Hazira, including Bharat Petroleum Corporation, Cairn Energy, Essar Power, Hindustan Petroleum and Larsen & Toubro, Reliance, NTPC among others.

- **Magdalla ports**

Magdalla is a **lighter age port**. The port is situated on the western coast of India in southern Gujarat. It is on the southern bank of river Tapti about 16 km upstream the river. After bifurcation of Mumbai State in 1960 the committee for development of Intermediate Ports recommended for the development of Magdalla Port site for cargo operation by carrying out required necessary dredging and creating necessary landing place and support fleet and infrastructure facilities taking into account the growth of Udhana as an Industrial area. Finally Magdalla Port was opened out in 1966 as an intermediate Port during which year the port has handled Bananas as export cargo and fertilizers, food grain as Import cargo**.**

The port is well connected by road with Rajasthan, Madhya Pradesh and north Maharashtra which are hinterland areas to the port. The main cargo handled by Gujarat Maritime Board (GMB) jetty at **Magdalla Port** is **coal.** Fertilisers, soyabean, groundnut, coal, general cargo, etc. can be handled at this proposed location.

(d) Posts and Telegraphs

The following statement shows number of villages in the district possessing post offices, phone facilities, internet connection and mobile networks.

Communications Facilities

Sr. No.	Type of Communication Amenities	No. of Villages having Facilities
1	2	3
1	Post Offices	36
2	Sub Post Offices	308
3	Telephone	629
4	PCO	450
5	Network of Mobile	621
6	Internet	578

Source: Village Directory -2011

Above table shows in the recent years, the facility of telephone and mobile network are built up more rapidly.

(e) State Road Transport

As a consequence of bifurcation of the bilingual state Bombay, with effect from the 1st May, 1960, the Bombay State Road Transport Corporation closed its operations in Gujarat. At the same time the Saurashtra State Road Transport Corporation and the Kachchh State Road Transport Corporation operating in Saurashtra and Kachchh areas respectively were dissolved and a new corporation namely, the Gujarat State Road Transport Corporation was established on the 1st May, 1960.

Out of total 713 villages in Surat district, 690 villages are inhabited. Out of these 683 villages are connected by direct bus facilities, while 3 villages get it at nearby 1 to 10 km and 4 villages get it at 10 to 20 km distance up to 2009-10.

ST Bus Services in District

Sr. No.	Details	Years 2009-10 Villages
1	2	3
1	Total Inhabited Villages	690
2	2.1 Availability of Direct Bus Service	683
	2.2 Villages having ST Services In Nearest Distance	
	2.2.1 Upto 10 km	3
	2.2.2 10 to 20 km	4
	Total	**690**

Source: Village Directory, 2011

(f) Air Services

Surat has a domestic airport which is well connected to different metros. It has daily flights to Delhi, Jaipur and Ahmedabad. Government of Gujarat has also undertaken aviation master plan for the state which priorities development as well as upgradation of the Surat airport. Nearest airports are at Vadodara and Mumbai.

(13) Electricity

Electricity is one of the chief importance necessities for the economic development of the district. The main source for power supply in the district is Dakshin Gujarat Vij Company Limited (DGVCL). All inhabited villages are electrified under Jyoti Gram project.

Surat has a well-developed network of Sub stations and power stations in the district to cater to the need of electricity for

industry and residential use. There are five 220 KV sub stations at different locations in the district at Sachin, Ichhapor, Kim, Vav and Bardoli. There are eight power stations in the district and one power station is proposed at Aakhakhol. One 132 KV sub-station is in place at Bhestan.

(14) Gram Panchayats, Its Composition, Jurisdiction and Role in the Development of Village and Its Economy

The system of Panchayati Raj was introduced in the year 1963 in Gujarat State. Under this set up, the 3 tier system was introduced namely, The District Panchayat, The Taluka Panchayat and The Gram Panchayat. Gram Panchayat is an important institution of self-government. The Gram Panchayat is formed for a village or a group of villages. The Gram Panchayat is constituted for a local area with the population of less than 15,000. Such local area may be revenue village or a group of revenue villages or hamlets forming part of a revenue village or such other administrative unit or part of thereof. The number of members of Gram Panchayat varies from 7 to 15. The tenure of Gram Panchayat is of five years. The people of village elect Sarpanch and Vice-Sarpanch (Up-Sarpanch) and other members of the Panchayat.

Every village Panchayat is divided into wards, i.e. smaller areas. Each ward elects a representative who is known as the Ward Member (Panch). All the members of the gram sabha also elect a Sarpanch who is the Panchayat President. The Ward Panchs and the Sarpanch form the Gram Panchayat. The Gram Panchayat is elected for five years.

The Gram Panchayat has a secretary who is also the secretary of the gram sabha. This person is not an elected person but is appointed by the government. The Secretary is responsible for calling the meeting of the Gram Sabha and Gram Panchayat and also for keeping a record of the proceedings.

(a) Gram Sabha

The gram sabha is a meeting of all adults who live in the area covered by a Panchayat. This could be only one village or a few villages. In some states, as in the example above, a village meeting is held for each village. Anyone who is 18 years old or more and who has the right to vote is a member of the gram sabha.

The gram sabha prevents the Panchayat from doing wrong things like misusing money or favoring certain people. It plays an important role in keeping an eye on the elected representatives and in making them responsible to the persons who elected them.

The main work of a Gram Panchayat includes.

1. The construction and maintenance of water sources, roads, drainage school buildings and other common property resources.
2. Levying and collecting local taxes.
3. Executing government schemes related to generating employment in the village.

(b) Sources of Funds for the Panchayat

1. Collection of taxes on houses, market places etc.
2. Government scheme funds received through various departments of the government through District Panchayats. Donations for community works etc.

Various committees like; Social Justice Committee and Standing Committee are formed. In the year 1993 Government of India enacted an 73rd Constitutional Amendment

regarding provisions of Panchayati Raj and in light of that constitutional amendment Government of Gujarat enacted amended Panchayati Raj Act from 15th April, 1994. By this constitutional amendment, Panchayats are given constitutional status. Regular and timely election, participation of women and backward classes, formation of separate State Election Commission and rotation system in electing the heads of the various committees are other significant amendments in the act. Decentralized planning process and active participation of people is the soul of the Panchayati Raj Act. The powers for decentralized planning, implementation and development are delegated to the Panchayats.

The primary functions of the District/Taluka Panchayats are providing facilities for primary education, health, drinking water, electricity, constructions and maintenance of roads, bridges etc., maintenance of gauchars, organising relief work at the time of scarcity and drought situation, sanitation and social welfare. Arrangements for housing facilities for below poverty line people and rural development schemes are implemented by panchayats. Gram Panchayats also implement important programmes like, 'food for work' and other programmes beneficial for the local people. Thus, Panchayats play an important role in the development of village and its economy.

(ii) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Pucca Houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, Stones (duly packed with lime or cement mortar), G.I/metal/ asbestos sheets, Burnt bricks, Cement bricks, Concrete. Roof may be made of from any one of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Cement bricks, Stone, Slate, G.I/Metal/Asbestos sheets, Concrete. Such houses are treated as Pucca house.

Kuchcha Houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, Unburnt bricks, bamboos, mud, grass, reeds, thatch, plastic /polythene, loosed packed stone, etc. Such houses are treated as Kuchcha house.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and veranda which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office, etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'Census House' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. If a building has a number of Flats or Blocks/Wings, which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, these are considered as a separate 'Census House'.

Village

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Town/ Urban area

The data in the census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. The urban area comprises two types of towns viz. statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows

(a) Statutory Towns

All places with a municipality, corporation, cantonment board or notified town area committee, etc. is known as statutory towns.

(b) Census Towns

All other places satisfying the following three criteria simultaneously are treated as Census Towns.

i) A minimum population of 5,000;
ii) At least 75 percent of male working population engaged in non-agricultural pursuits; and
iii) A density of population of at least 400 per sq. km (1,000 per sq. mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 2001 Census had a population of 4,000 and above, a population density of 400 persons per sq. km and having at least 75 percent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. In addition the above stated towns, urban areas also constitutes of OGs which are the parts of UAs.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, military camps etc. may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it

to be treated as an independent urban unit but may qualify to be clubbed with the exiting town as their continuous urban spread (i.e., an Out Growth). Each such town together with its outgrowth(s) is treated as an integrated urban area and is designated as an 'urban agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted.

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of an Urban Agglomeration (i.e. all the constituents put together) should not be less than 20,000 as per the 2001 Census. In varying local conditions, there were similar other combinations which have been treated as urban agglomerations satisfying the basic condition of contiguity.

Out Growth (OG)

The outgrowth is a viable unit such as a village or a hamlet or an enumeration block and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as pucca roads, electricity, taps, drainage system for disposal of waste water etc., educational institutions, post offices, medical facilities, banks etc. and physically continuous with the core town of the U.A.

City

Towns with population of 1,00,000 and above are called cities.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggars' homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household

Households who do not live in buildings or census houses but live in the open or roadside, pavements, in home pipes, under flyovers and staircases, or in the open in places of worship, man daps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes:-

The list of SCs and STs applicable in the State/UT is given here under: -

List of Scheduled Castes:

1 Ager
2 Baakad, Baant
3 Bawa Dhed, Dhed Sadhu, Vankar-Sadhu, Harijan-Bava
4 Bhambi, Bhambhi, Asadaru, Asodi, Chamadiya, Chamar, Chamar-Ravidas, Chambhar, Chamgar, Haralayya, Harali, Khalapa, Machigar, Mochigar, Madar, Madig, Mochi, (in The Dangs district and Umergaon Taluka of Valsad district only), Nalia, Telugu Mochi, Kamti Mochi, Ranigar, Rohidas, Rohit, Samgar
5 Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli, Barwashia, Barwasia, Jamphoda, Zampada, Zampda, Rushi, Valmiki.
6 Chalvadi, Channayya
7 Chenna-Dasar, Holaya Dasar
8 Dangshia
9 Dhor, Kakkavya, Kankayya
10 Garmatang
11 Garoda, Garo, Hindu Garoda Brahman, Garva

13 Halsar, Haslar, Hulasvar, Halaswar
14 Holar, Valhar
15 Holaya, Holer
16 Lingadar
17 Mahar, Taral, Dhegu Megu
18 Mahyavanshi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19 Mang, Matang, Minimading
20 Mang-Garudi
21 Meghval, Meghval, Meghvar, Jadeja Meghval, Maheshvari Meghval, Vankar Meghval, Charan Meghval, Gurjar Meghval.
22 Mukari
23 Nadia, Hadi
24 Pasi
25 Senva, Shenava, Chenava, Sedma, Rawat, Senma
26 Shemalia
27 Thori
28 Tirgar, Tirbanda
29 Turi
30 Turi Barot, Dhed Barot
31 Balahi, Balai
32 Bhangi, Mehtar

33 Chamar
34 Chikwa, Chikvi
35 Koli, Kori
36 Kotwal (In Bhind, Dhār, Dewas, Guna, Gwalior, Indore, Jhabua, Khargone, Mandsaur, Morena, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha districts).

Sr. No. 31 to 36 are included vide The Constitution (Scheduled Castes and Scheduled Tribes) Orders (Amendment) Act, 2002 who have been displaced due to Sardar Sarovar Project on the Narmada River and are settled or may be settled in the State of Gujarat, in the lists of Scheduled Castes and Scheduled Tribes specified in relation to the State of Gujarat.

List of Scheduled Tribes:

1 Barda
2 Bavacha, Bamcha
3 Bharwad (in the Nesses of the forests of Alech, Barada and Gir)[a]
4 Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5 Charan (in the Nesses of the forests of Alech, Barada and Gir)[a]
6 Chaudhri (in Surat, **Tapi**, Navsari**** and Valsad districts)
7 Chodhara
8 Dhanka, Tadvi, Tetaria, Valvi
9 Dhodia, Dhodi
10 Dubla, Talavia, Halpati
11 Gamit, Gamta, Gavit, Mavchi, Padvi
12 Gond, Rajgond
13 Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14 Kokna, Kokni, Kukna
15 Koli Dhor, Tokre Koli, Kolcha, Kolgha
16 Kunbi (in the Dangs district)
17 Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
18 Padhar
19 Pardhi, Advichincher, Phanse Pardhi (excluding Amreli, Bhavnagar, Jamnagar, Junagadh, **Porbandar**,** Kutch, Rajkot and Surendranagar districts)
20 Patelia
21 Pomla
22 Rabari (in the Nesses of the forests of Alech, Barada and Gir)[a]
23 Rathawa
24 Siddi, Siddi-Badshan (in Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar districts)
25 Varli
26 Vitola, Kotwalia, Barodia
27* Bhil, Bhilala, Barela, Patelia
28* Tadvi Bhil, Bawra, Vasave
29* Padvi

[a] The area comprised of Jamnagar, **Porbandar**,** and Junagadh districts.
* Oustees of the States of Madhya Pradesh and Maharashtra, who have been displaced due to Sardar Sarovar Project on the Narmada River and are settled or may be settled in the State of Gujarat.

NOTE 1: (Porbandar district was created from Jamnagar district in the year 1997. Hence Bharwad, Charan, Rabari, Siddi-Badshan, coming under Porbandar district may please be treated as ST)

NOTE 2: **Tapi district was newly created from Surat district in 2006 and Navsari district was created from Valsad district in 1997. Hence Choudhari Coming under these districts may please be treated as ST.

Language and Mother Tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate

Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational Level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main Worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal Worker

A person who worked for 3 months or less but less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-Worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or from government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like– tea, coffee, rubber, coconut and betel nuts (areca). The workers engaged in Plantation crops are recorded under "other workers".

Agricultural Labourer

A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household Industry Worker

Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. The activity relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Worker

A person, who has been engaged in some economic activities during the last year of reference period; but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In fact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

Work Participation Rate

Percentage of Workers (Main + Marginal) to total population

Population Density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex Ratio

Number of females per 1,000 males in a population

(iii) Non-Census Concepts

Civic Status of Urban Units

Civic Status of a town/city is determined on the basis of Civic Administrative Authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee / Municipal council, Municipality etc.

Size Class of U.A./Town

Size-class of U.A./Town is based on the population size of the U.A./Town.

U.A.s/Towns with 1,00,000 and above population are classified as Class I U.A.s/ Towns. Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000 to 19,999 are Class IV towns, population with 5,000 to 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum Area

The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega City

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut-off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 million and above population have been treated as Mega cities and the same criteria of population have been adopted in 2011 census.

Concepts used in VD and TD of DCHB

1. Educational Amenities

The type of different educational facilities available in the village is given in numbers. Government and private educational facilities / institutions both are considered for this-purpose. If there are composite schools like Middle schools with Primary classes, or Secondary schools with middle classes, these are included in the number of Primary and Middle schools respectively. For example, if in a village there are two Primary schools and one Middle school with primary classes, the number of Primary schools in the village are given as three and that of Middle school as one even though there may be only three educational institutions, So also

in case of Secondary schools. For better understanding, the distinctiveness of different types of schools is depicted here under.

1.1 Pre-Primary (PP)

Now-a-days, the children are sent to schools at a very early stage. Lot of pre-primary schools, private schools in particular, have come up in villages and towns. These may or may not be recognized by the competent authorities. Even many Secondary schools have classes starting from pre-primary level. Pre-primary classes include Nursery, K.G., Pre-basic, Play school, etc.

1.2 Primary School (P)

Schools providing education from Standard I and upward up to and inclusive of Standard V are classified as Primary Schools.

1.3 Middle School (M)

Schools providing education from Standard VI and upward up to and inclusive of Standard VIII are classified as Middle Schools. A School with Class I to VIII is treated as two units, i.e. one Primary School and one Middle School.

1.4 Secondary School (S)

Schools providing education from Standard IX and upwards up to and inclusive of Standard X are classified as Secondary Schools. A composite school with I to X standard is treated as three separate units and counted separately under the categories of Primary School, Middle School and Secondary School.

1.5 Senior Secondary School (SS)

Schools and colleges that provide education for Standards XI and XII and first and second year of the Pre-University Course fall under this category. There are Senior Secondary Schools with Standard I and upwards up to Standard XII.

1.6 Degree College

(i) Arts/Science/Commerce

These are all educational institutions that provide post-PUC level education leading to University degree/diploma in any subject or combination of subjects and also post-graduate levels of education. The college offering courses in Arts, Science or Commerce either separately or in combination are covered under this category.

(ii) Engineering College (E)

It is a graduate/post-graduate degree college providing Bachelor of Engineering (BE) or Bachelor of Technology (B. Tech.) or post-graduate engineering degrees like M. Tech.

(iii) Medical Colleges

These are graduate/post-graduate degree colleges providing MBBS or equivalent degree in alternative medicine like Ayurveda, Unani, Homeopathy etc. or post-graduate medical degrees like M.D or equivalent in the above branches of medicine.

1.7 Management College/ Institute (MI)

It offers courses like Diploma in Management, Post-Graduate Diploma in Management, Masters of Business Administration (MBA) and specializations in different disciplines of Management like Marketing, Human Resources Development (HRD) etc.

1.8 Polytechnic (Pt)

An Institution providing certificate/diploma (not equivalent to degree) in any technical subject like engineering, vocational courses like embroidery, fashion designing etc. It may be both Government and Private.

1.9 Vocational School/ITI

It is a vocational training institute imparting trainings in specific fields acquiring necessary skill, which will make the trainees employable or create them opportunities of self-employment. Trainings offered by Industrial Training Institutes (ITI) fall under this category.

1.10 Non-formal Education/Training Centre (NFTC)

Non-vocational education centers, established by the Central and State Governments provide educational facilities to the interested persons irrespective of educational qualification and age. These education centers are open to all.

1.11 Special School for Disabled

There are Government and Government recognized institutions/organizations engaged for providing education to different groups of disabled persons.

2. Medical Facilities

2.1 Hospital-Allopathic and Hospital-Alternative medicine

A hospital is an Institution, where sick or injured are given medical or surgical care. Bed strength differs from hospital to hospital ranging from 31 to 500 depending upon whether these are sub-district, sub-divisional or district hospitals. If there are hospitals providing facilities under different systems of medicines such as, Allopathic, Ayurveda, Unani and Homeopathy etc., these details are given separately.

(a) Allopathic

The system of medical practice, which treats disease by the use of remedies which produces effects different from those produced by the disease under treatment.

(b) Ayurveda

Ayurveda means ‘Science of life’. The philosophy of Ayurveda is based on the theory of Pancha Mahabhootas (Five elements) of which all the objects and living bodies are composed of. The combination of these five elements is represented in the form of Tridosha: Vata, Pitta and Kapha. These three ‘doshas’ are physiological entities of living beings. Ayurveda developed into eight distinct specialties, i.e., Internal Medicine, Pediatrics, Psychiatry, Eye and ENT, Surgery, Toxicology, Geriatrics and Science of virility. Two types of treatments, Preventive and Curative, are given in Ayurveda.

(c) Unani

Treatment of Unani consists of three components, namely, preventive, primitive and curative. Unani system of medicine has been found to be efficacious in conditions like Rheumatic Arthritis. Jaundice, Filarisis, Eczema, Sinusitis and Bronchial Asthma. For the prevention of the disease and promotion of health, the Unani System emphasizes six essentials: pure air, food and water, physical movement and rest, psychic movement and rest, sleep and wakefulness and retention of useful materials and evacuation of waste materials from the body.

(d) Homoeopathy

Treatment in Homoeopathy, which is holistic in nature, focuses on an individual's response to a specific environment. Homoeopathic medicines are prepared mainly from natural substances such as plant products, minerals and animal sources. Homoeopathic medicines do not have any toxic, poisonous or side effects. Homoeopathic treatment is economical as well and has a very broad public acceptance.

2.2 Community Health Centre (CHC)

Community Health Centers are designed to provide referral health care for cases from PHC and those in need of specialist health care approaching the CHC directly. 4 PHCs are included under each CHC thus catering approximately 80,000 populations in tribal/hilly areas and 1,20,000 populations for plain areas. CHC is a 30-bedded hospital providing specialist care in Medicine, Obstetrics and Gynecology, Surgery and Pediatrics.

2.3 Primary Health Centre (PHC)

A Primary Health Centre is the first contact point between a village community and the Government medical officer**.** A PHC covers a population of 20,000 in hilly, tribal or difficult areas and 30,000 populations in plain areas with 4-6 indoor/observation beds. It acts as a referral unit for 6 sub-centers. It has a medical officer and para medical staff.

2.4 Primary Health Sub- Centre (PHS)

A Primary Health Sub-centre is the first contact point between the primary health care system and the community. As per the population norms, one PHS is established for every 5,000 population in plain areas and 3,000 populations in hilly/ tribal/ desert areas. Each PHS has a sanctioned strength of one male and one female health worker.

2.5 Maternity and Child Welfare Centre (MCW)

It provides pre-natal and post-natal services for both mother and child. The services include regular check-up of pregnant women, giving folic tablets, counseling, delivery, immunization of children with check-up etc.

2.6 TB Clinic (TBC)

The diagnosis and treatment of TB are functions of the general health services and hence it is a part and parcel of Primary Health Care. Specialized units such as the District Tuberculosis Centre (DTC) act as referral centers. TB clinics are established by the Government of India under the National Tuberculosis Control Programme and implemented through a network of DTC. The DTC is the nodal point for TB control activities in the district and it also functions as a specialized referral centre. The functions of sub-district level Tuberculosis Unit (TU) are

implementation, monitoring and supervision of TB control activities in its designated geographical areas.

2.7 Health Centre

Clinic where medicine and medical supplies are dispensed. It has no in-patient facility. A clinic (or an outpatient clinic) is a small private or public health facility that is devoted to the care of outpatients, often in a community, in contrast to larger hospitals, which also treat inpatients.

2.8 Dispensary

Place where patients are treated and medicines provided but with no in-patient facility. Immunizations, MCH Services and sometimes pathological tests are carried out here. It may be of allopathic or any alternative medicine.

2.9 Veterinary Hospital

Mostly run by the State Government or local body for treatment and preventive measures against diseases of domestic animals like cows, buffaloes etc. in rural areas.

2.10 Mobile Health Clinic

These are Mobile vans well equipped with a range of health services to villages located far away from the CHCs, PHCs or any public health sources. The vans visit villages on designated days to deliver the health care services. The services generally offered are OPD, ante-natal and post-natal, B.P. examination, X-ray, ECG, Immunization, First Aid etc.

2.11 Family Welfare Centre

Check-up and counseling is provided to the pregnant and married women regarding small family norm and devices for having a small family. Temporary and permanent contraceptive devices are provided here.

2.12 Nursing Home

A nursing home is a long –term care facility licensed by the state that offers 24-hour room and board and health care services including basic and skilled nursing care, rehabilitation and a full range of other therapies, treatments and programs to old and sick people. The difference between a hospital and a nursing home is that a nursing home gives importance to convalescence from a disease while a hospital gives medical treatment for the disease.

2.13 Medicine Shop

A shop which sells drugs and medicines of any system of medicine viz. allopathic, homeopathic, ayurvedic or unani medicines, is considered as a medicine shop. Sometimes some shops and Paan shops also keep ordinary medicines, like Crocin, Burnol etc. These shops are not taken as medicine shops.

3. Drinking Water

The following are the main source of drinking water facility (i.e.) available in the village.

3.1 Tap Water Treated

This source of drinking water refers to a source of drinking water which is provided to the villagers through pipes within their premises or to the villagers through common taps (public taps/community water points) by the Government departments, local bodies, panchayats, public or private estate agencies, etc. after treatment. Such a source is treated as 'Tap water from treated source'.

3.2 Tap Water Un-treated

If the villagers are drawing drinking water through pipes either directly from a well or bore well or after pumping the well or tube well water, or the water is supplied through pipes to the households of the village or through public taps without treatment. Such a source is treated as 'Tap water from un-treated source'.

3.3 Covered Well (CW)

A well that is (1) covered on sides from run-off water (i.e., excess water from rain, snowmelt or other sources flows over the land) through a wall lining or casting that is raised above ground level on a platform that diverts spilled water away from the well and (2) covered so that bird droppings and animals cannot fall down the hole. It is considered as covered well.

3.4 Un-covered Well (UW)

A well which is (1) un-covered on sides from runoff water, (2) un-covered from bird droppings and animals; or (3) both

3.5 Hand Pump (HP)

Hand pump means where ground water is taken out manually by operating a hand pump.

3.6 Tube Well / Borehole (TW)

Tube well denotes the ground water source from where ground water is taken out through electrical or diesel pump. Spring, River/Canal, Tank/Pond/Lark are self-explanatory.

4. Community Toilet Complex

Community Toilet may be constructed and maintained by Gram Panchayats or Private NGOs like Sulabh Sauchalaya or likes.

5. Rural Sanitary Mart or Sanitary Hardware Outlet (RSM)

It is an outlet dealing with the materials, hardware and designs required for the construction of not only sanitary latrines but other sanitary facilities such as compost pit, washing platform and other sanitation and hygiene accessories required for individuals, households and the environment in the rural areas.

6. Community Bio-gas or Recycle of Waste for Productive Use

Many of the solid wastes having economic values but put for disposal can be recycled for reuse. For example, food, cow dung, leaves, vegetable, paper, wood, plastics, old cloth etc. However, some of the wastes are not recyclable. These are carbon paper, thermo coal etc. When a recyclable solid waste is subjected to decomposition, bio-gas could be produced under

favorable conditions. These systems of recycling may be there at the village level organized by Gram Panchayats with technical support from Governments or non-government organizations.

7. Communication and Transport Facilities

7.1 Post Office (PO)

Self-explanatory

7.2 Sub-Post Office (SPO)

Sub-post office includes Extra Departmental Post Offices and those providing franchise postal services and also part time services in lieu of some honorarium. The limited postal services include sale of stamps, receipt of letters and money orders and also distribution of letters.

7.3 Post & Telegraph Office (PTO)

Telegraph office is set up by the Government to enable people to send or receive telegrams. If the phonogram facility is available (though the Telegraph office may not be equipped with Morse Code Transmitters), the village is considered to be having telegraph facility.

7.4 Telephones (Landlines)

If the village is having the Public Call Office (PCO) either run by the Post Office or by individuals or by a private shop, then the village is considered to be having telephone facility.

7.5 Public Call Office (PCO)/Mobile PCO

Self-explanatory

7.6 Mobile Phone Coverage

Mobile phones are now very common particularly in urban areas. Some villages by virtue of being in close proximity to the urban areas also enjoy the benefits of the mobile phone services. Even if a few villagers avail the services of mobile phones, then the village is considered to be having access to mobile phone.

7.7 Internet Cafes/Common Service Centers (CSC)

If the village is having the facility of Cyber Cafes or shops owned by private individuals providing the facility of surfing of the internet, then the village is considered to be having access to internet/cyber cafe facility. Government of India formulated the scheme of CSC with the vision of providing all government services in an integrated manner at the door step of the citizen at an affordable cost even in the remotest corners of the country through a combination of it based as well as non-IT based services.

7.8 National Highway (NH)

These are main highways running through the length and breadth of the country. Each NH is numbered like NH-1, NH-2 for easy identification.

7.9 State Highway (SH)

These are roads of a state linking district headquarters and important cities within a State and connecting them with NHs or Highways of the neighbouring States.

7.10 Major District Roads (MDR)

These are important roads within a district, serving areas of production and markets and connecting these with each other or with the main highways.

7.11 Other District Roads (ODR)

These are roads serving rural areas of production and providing them with outlet to market centers, taluka headquarters, block development headquarters or other main roads.

7.12 Village Road

The approach to village refers to the state of road etc., leading to the village. This is to see whether the village is approachable both in fair and foul weather, and whether it is inaccessible only for some time in the year.

7.13. Black-Topped (Pucca) Road (BTR)

A road provided with a bituminous surfacing.

7.14 Gravel (Kachcha) Road (GR)

A road constructed using well compacted crushed rock or gravel material (coarse sand, small stones), which is fairly resilient and does not become slippery when wet.

7.15 Water Bound Macadam (WBM)

This is the road layer made of crushed or broken mixture of sand and rock fragments mechanically interlocked by rolling and voids filled with screening and binding material with the assistance of water.

7.16 Foot Path (FP)

A trodden path for the use by pedestrians and in some cases bicycles. The Foot Paths are not suitable for vehicular traffic except bicycles in some cases. Most of the interior/forest villages are connected by Foot Paths.

8. Banks and Credit Societies

Banking facility means a place where a person can operate a bank account.

8.1 Commercial Bank (CB)

These may be banks wholly owned by the Government of India by Indian or Foreign Companies.

8.2 Cooperative Banks (Coop. B)

A co-operative bank is a financial entity which belongs to its members, who are at the same time the owners and the customers of their bank. Cooperative banks are often created by

persons belonging to the some local or professional community or sharing a common interest. These banks are registered under the Cooperative Societies Act. The cooperative banks are regulated by RBI and are covered by the Banking Regulations Act, 1949.

8.3 Agricultural Credit Society (ACS)

Major objectives of the ACS are to supply agricultural credit to meet the requirements of funds for agricultural production, the distribution of essential consumer commodities, the provision of storage and marketing facilities and for light agricultural implements and machinery.

8.4 Non-Agricultural Credit Society (NCS)

These societies include consumer cooperative societies and also credit cooperative societies of certain categories of persons like teachers, health workers, etc.

9. Miscellaneous Facilities

9.1 Self-help Group (SHG)

Self-Help Groups are groups of between 10-25 women created by either NGOs or under the SGSY (Swarnjayanti Gram Swarozgar Yojana) for the purposes of meeting local credit needs. They are sometimes called Mahila Mandals in villages.

9.2 Public Distribution System (PDS) Shop

The shops through which some essential commodities are sold by the government at subsidized rates. They may also be known as ration shops and control shops.

9.3 Mandis/Regular Market

These are those clusters of shops with or without fixed premises which are open on at least six days a week and opens at least from morning hours to dusk.

9.4 Weekly Haat

These are those clusters of shops with or without fixed premises which are open once a week.

9.5 Agricultural Marketing Society

It is a common platform to analyses the issues among all the individuals and institutions in the field of agricultural marketing.

9.6 Nutrition Centre: Integrated Child Development Services (ICDS)

The Integrated Child Development Services (ICDS) Scheme set up by the Government of India with the objective of providing following package of services to the children under 6 years and pregnant and lactating mothers in villages such as; Immunization, Health Check-up, Referral Services, Pre-school Non-formal Education and Nutrition & Health Education.

9.7 Anganwadi Centre

Each centre under the ICDS scheme is run by an Anganwadi Worker. One Anganwadi worker is appointed for specified population of the village. They are basically local women. They are assisted by Anganwadi helper. They provide pre-school non-formal education at the Centre and provide food to the children.

9.8 Accredited Social Health Activist (ASHA)

ASHA is a health activist in the community who will create awareness on health and its social determinants and mobilize the community towards local health planning and increased utilization and accountability of the existing health services. She would be a promoter of good health practices. She will also provide a minimum package of curative care as appropriate and feasible for that level and make timely referrals. She will act as a motivator of different types of health related activities. Unlike ANM, she will not be involved in any clinical activities like immunization.

9.9 Sports Club/Recreation Centre

Indoor and out-door games are arranged by the Club and activities like wrestling, Judo Karate etc. are also done there.

9.10 Cinema/Video Hall (CV)

If a regular cinema house licensed by Government is available, then the town/village is considered to be having the facility of Cinema Hall. Video hall owners screen films in their own or hired premises.

9.11 Public Library

Books are kept their which can be accessed by the public on loan basis. These may be sponsored by Government or Local Body or Panchayat or any influential person. Free service or nominal charges are made for using the facility.

9.12 Public Reading Room

Here the public may read newspapers and magazines. These may be sponsored by Government or Local Body or Panchayat or any influential person.

9.13 Newspaper Supply

The availability of the Newspaper(s), both in English or vernacular, in the village is considered to having the said facility.

10. Availability of Electricity/Power.

If power is actually available, whatever may be the form of its use, it is indicated affirmative. If the village is having electricity for domestic purposes and the residents are using the same for domestic use, then it is considered that domestic power supply is available. If the electricity authority has not given domestic supply to the households on their request and people are using unauthorized electricity either by stealthily or misuse the supply meant for agricultural or industrial purposes, then it is not considered as availability of electricity for domestic purposes. However, if the village goes out of power due to temporary technical problems such as, transformer failures, theft of electrical equipment, etc., it is considered that electricity is

available. Supply of electricity is considered available even when there is a temporary ban on new domestic connections. Connections to residential houses, bungalows, clubs, hostels and hospitals run on non-commercial basis, charitable, educational and religious institutions are included in the domestic category.

10.1 Power Supply for Domestic Use

This category includes electricity used only for domestic consumption.

10.2 Power Supply for Agricultural Use

This category includes all electricity connections given to the farmers for conducting various agricultural activities including irrigation.

10.3 Power Supply for Commercial Use

This category includes electricity connections given for workshops, industries etc. or for any commercial purposes.

10.4 Power Supply for All Uses

This category includes electricity connection is available for domestic use, agricultural use, and for any commercial purposes.

11. Land Use Pattern

The land use area of the villages is given in hectares. The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the 9 categories as indicated in the Village Directory.

12. System of Drainage

Generally, by drainage system, we mean the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in towns, which are not provided with such underground sewerage system, it is mentioned whether it has open drainage system. There may be possibility of the town having both closed as well as open drainage systems.

13. Type of Latrines

The data on various types of latrines both public and private together are collected. The three types of latrines considered here are, Pit Latrine, Flush/Pour Flush Latrine and Service Latrine.

(i) Pit System

The latrines are attached to the pit that is dug into the ground for the reception of night soil, are reckoned as pit latrine.

(ii) Flush/Pour Flush

A flush latrine uses a cistern or holding tank for flushing water and has a water seal, which is a U-shaped pipe, below the seat or squatting pan that prevents the passage of flies and odours. A pour flush latrine uses a water seal, but unlike a flush latrine, a pour flush latrine uses water poured by hand for flushing (no cistern is used).

(iii) Service

Type of latrine from where night soil has been removed manually by scavengers. All other types of latrines are covered under "Others" category.

14. Protected Water Supply- Source and Capacity of Storage System

There are various sources of water supply and its storage system in the town.

14.1 Service Reservoir

A service reservoir is a water storage container that holds clean water after it has been treated in a water plant, and before it is piped to the end users. These containers are covered, and are designed to keep the water safe from contamination. Their main purpose is to provide a buffer within the water supply system so that water supplies can be maintained across periods of varying demand.

14.2 River Infiltration Gallery

Infiltration Galleries are capable of supplying large quantities of water, and are used where wells are unable to supply water needs, i.e. where an impermeable rock barrier affects well efficiency, or where surface water sources are too shallow for intake screens**.** Infiltration galleries are one or more horizontal screens placed adjacent to (on-shore), or directly underneath (bed-mounted), a surface water source.

14.3 Bore Well Pumping System

A bore well is a well of 6" to 12" in diameter drilled into the earth for retrieving water. The depth of a bore well can vary from 50 feet to 3,000 feet. Water is pumped out to surface through electricity/generator.

14.4 Pressure Tank

Tank that is used to ensure consistent water pressure and for storage of water. Usually located in basement of house but sometimes (in older settings) located in well pit.

15. Road Lighting (Points)

Road lighting means the number of street lights that are maintained in the town.

16. Home Orphanage

Orphanage is the name to describe a residential institution devoted to the care of orphans–children whose parents are deceased or otherwise unable to care for them. Parents and sometimes grandparents are legally responsible for supporting children, but in the absence of these or other relatives willing to care for the children, they become a ward of the state and orphanages are a way of providing for their care and housing.

17. **Working Women's Hostel**

These may be recognised or non-recognised by any public authority. The data on number of working women's hostels available in the town are collected with number of seats.

18. **Old Age Home**

There are two types of Old Age Homes in India. One is the "Free" type which cares for the destitute old people who have no one else to care for them. They are given shelter, food, clothing and medical care. The second type is the "Paid" home where care is provided for a fee. Nowadays, such "Retirement" homes have become very popular in India and they are well worth considering.

19. **Stadium**

A stadium is a place, or venue, for (mostly) outdoor sports, concerts or other events, consisting of a field or stage partly or completely surrounded by a structure designed to allow spectators to stand or sit and view the event.

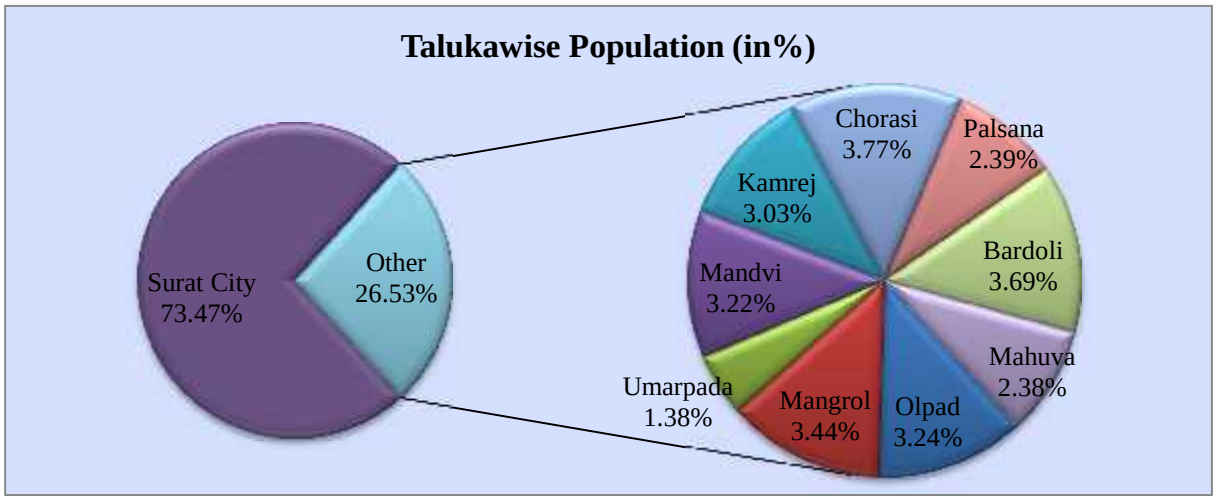

20. Auditorium/Community Hall

These are the places where meetings, social functions etc. are organized.

(iv) 2011 Census Findings - Population and Its Distribution

(a) Distribution of Population in Rural-Urban Areas

According to the 2011 Census, the total population of Surat district is 60,81,322 comprising 34,02,224 males and 26,79,098 females. The population of the district forms 10.1 percent of the State population and rank at 2nd place among the districts of Gujarat state. Out of the total population of the district 20 percent that is 12,32,109 live in rural area while 80 percent, that is 48,49,213 live in urban area. Rural population of the district is distributed among 10 talukas and urban population is spread over in 23 towns. The total urban population in the district is 48,49,213 comprising 27,62,164 males and 20,87,049 females. The rural population in this district is 12,32,109 comprising 6,40,060 males and 5,92,049 females as per 2011 Census. This rural population is distributed in 690 villages of the district.

Source: Primary Census Abstract -2011.

The total population of Surat City taluka is 73.47% of the total population of the District, which is higher than other talukas of the District. The total population of Umarpada taluka is 1.38% of the total population of the District, which is lower than other talukas of the District.

(a) Size Class & Status of Towns, Population Growth, Density, Sex Ratio, Work Participation Rate, Details of Literacy and Availability of University Education in the District

The statement below gives the civic status, size class of town and population for 23 towns of Surat district for 2011 Census.

Sr. No.	Class Name and Civic Status of Town	Size And Class of Town	Population
1	2	3	4
1	Kim (CT)	IV	18638
2	Sayan (CT)	IV	15324
3	Tarsadi (M)	III	29305
4	Kosamba (CT)	IV	16151
5	Mandvi (M)	IV	18214
6	Amboli (CT)	V	6137
7	Surat (M Corp.) (Part)	I	4467797
8	Surat (M Corp. + OG) (Part)	III	33813

Sr. No.	Class Name and Civic Status of Town	Size And Class of Town	Population
1	2	3	4
9	Hajira (INA)	V	5562
10	Magdalla (INA)	VI	18
11	Sachin (INA)	VI	2680

Total	**10**	**690**	**23**

Source: Primary Census Abstract –2011.

The work participation rate is defined as percentage of total workers to total population. In the same way it is defined for main workers and marginal workers. According to 2011 Census, the total workers including main and marginal workers constitute 42.0 percent of the total population of the district. Of the total workers the share of the main workers is 39.6 percent and the marginal workers is 2.4 percent. The remaining population is non-workers.

As per 2011 Census among the main workers male participation rate in the district is 61.0 and corresponding proportion for female is 12.3 percent. Male and female marginal workers account for 2.0 and 3.0 percent respectively.

A person who can read and write in any language with understanding is taken as 'literate' in census. All children of 0 to 6 years age-group are treated as 'illiterates'.

As population per 2011 census Surat district reported 45,71,410 persons as literates constituting 85.5 percent of the total. The proportions of male and female literates in the district are 89.6 and 80.4 percent respectively. The gap between male and female literacy rates is 9.2 percentage points in the district.

The total literacy rates of rural and urban areas are 76.9 and 87.7 percent respectively. The proportion of male and female literates in rural areas is 82.8 and 70.6 percent respectively. In urban areas these proportions are 91.1 and 83.2 percent respectively. The gap between male and female literacy rates in urban areas is 7.9 percentage points as against 12.2 percent in rural areas. Females in urban areas have significantly higher literacy rate than females of rural areas in the district.

University Education

There are 99 colleges in Surat district which includes 45 Arts/Commerce and Science stream. Besides these there are 15 Engineering colleges, 6 Medical colleges, 25 Management Institute and 8 polytechnic in the district.

Religion

Religion forms an integral part of Indian Social system. In the pre-Independence census reports, the data on religions was being presented for 9 major religions viz. Hindu, Muslim, Christian, Sikh, Jain, Buddhist, Parsi, Jew and others. However, since the 1951 census the data on religion has been presented for 6 major religions viz. Hindu, Muslim, Christian, Sikh, Jain

and Buddhist. Besides, the minor religions have been classified under the category of 'other'. The data on religion collected and presented by the Indian Census is the basic data of intense use for the 'researchers', anthropologists, sociologists, demographers, administrators, planners and even for a common man.

In 2011 the Indian Census collected the religion data of the household schedule and recorded the same under the six major religions, other religions were recorded in actual as returned by the respondent and classified under the category of 'Others'. Religion not stated has been added for those persons who have not stated their religion at the time of canvassing the status of religion.

Percentage Distribution of Population by Major Religions in 2011 Census

Source: Census of India, 2011.
Note: Percentage are given in bracket

It is observed that at State level 88.57 percent of populations are followers of Hindu religion, whereas in Surat district they constitute 86.5 percent of the population. In Gujarat State 9.67 percent of population follows Muslim religion whereas 10.9 percent of population follows Muslim religion in Surat district. The population of Jains in the State is 0.96 percent, whereas in Surat district it is 1.9 percent. The population of Christian in the State is 0.52 percent, whereas in Surat district it is 0.3 percent. The population of Sikh in the State is 0.10 percent, whereas in Surat district it is 0.1 percent.

In Surat district, proportionately, the percentage of Hindu, Muslim, Sikh, Buddhist and Jain population in urban areas is more than that in rural areas, while that of Christian is little more in urban areas as compared to that in rural areas.

(c) Mother Tongue

Mother tongue is the language spoken in the childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in the childhood will be the mother tongue. In the case of deaf and dumb infants the language usually

spoken by the mother will be his/her mother tongue. The following statements present the data relating to mother tongues of the Surat district.

Source: Primary Census Abstract –2001.

By observing above table we show that ratio of people whom mother tongue is Gujarati is highest which is 56.90%, while the ratio of the people who speaking Bhili/Bhilodi, Hindi and Marathi are 14.77%, 13.36% and 7.79% respectively from all population of Surat, Also we can say that rest of languages speaking people are very less.

Scheduled Castes and Scheduled Tribes

The Statement below gives the decadal growth rate of Scheduled Castes population and Scheduled Tribes population during 2001-2011 which are -1.75 percent and 6.17 percent respectively. Minus decadal variation in Schedule Castes may be due to migration of people in that caste. As this caste people are labourers and so migration may be possible due to their employment purpose in the survey year. Out of the total population of 1,58,115 Scheduled Castes in the Surat district as per 2011 Census, 38,640 live in rural area and the remaining 1,19,475 belong to urban area. Of the total Scheduled Tribes population, 6,83,413 live in rural area while 1,73,539 live in urban area.

Decadal Variation of Scheduled Castes and Scheduled Tribes Population

	Total	**28 (4%)**	**100,845**	**88,824**	**9 (1%)**	**73,126**	**53,501**

Table 2 gives the number and percentage of inhabited villages in different population ranges. From the table we can interpret that out of 690 inhabited villages of the district, maximum number of villages (262) having population in the range 1000-1999 followed by 166 villages having population range 500-999. Only 9 villages have population 10,000 and above and 15 villages have population less than 200.

Table 3
New Towns, De-Notified, Declassified and Merged Town in 2011 Census

(a) New	
(i) Statutory town	4 - Tarsadi(M), Mandvi(M), Kanakpur-Kansad(M), Magdalla INA
(ii) Census town	7 - Kim, Amboli, Bharthana Kosad, Mora, Pardi Kanade, Vareli, Baben
(b) Denotified	
(i) Statutory towns of 2001 Census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 2001 Census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 2001 Census are notified as statutory town in 2011 Census	Nil
(c) Declassified	Nil
(d) Wholly merged with other town(s).	Chhapra Bhatha (CT), Utran (CT), Parvat (CT), Un (CT) merged in Surat M.Corp.

Table 3 listed number of towns de-notified, declassified, new towns created or merged with other towns. Four new Statutory Towns namely Tarsadi (M), Mandvi (M), Kanakpur-Kansad (M), Magdalla INA and seven new Census towns namely Kim, Amboli, Bharthana Kosad, Mora, Pardi Kanade, Vareli and Babenhas been created in Census 2011 in Surat district.

Table 4
Sex Ratio of State and District, 1901-2011

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	954	951	965	992	1006	948
1911	946	943	960	990	1003	939
1921	944	947	931	988	1008	917

1961	940	956	896	967	990	922
1971	934	951	893	943	970	898
1981	942	959	905	908	975	844
1991	934	949	907	882	939	842
2001	920	945	880	810	923	763
2011	919	949	880	787	925	756

Note: Sex Ratio has been defined here as the number of females per 1000 males.

Sex ratio is defined as the number of females per 1,000 males. Above table shows the sex ratio for Gujarat and Surat district since 1901. In Census 2011, sex ratio for the State is 919 and for the District it is 787. As compared to Census 2001 sex ratio of Surat has worsen by 23 points. Urban sex ratio (756) of the district had also worsen by seven points as compared to Census 2001 however rural sex ratio of the district is slightly increased.

Table 5
Sex Ratio by Sub-District, 2011

Sr. No.	Name of Sub-District	Sex Ratio		
		Total	Rural	Urban
1	2	3	4	5
1	03932-Olpad	906	922	835
2	03933-Mangrol	908	904	919
3	03934-Umarpada	989	989	0
4	03935-Mandvi	997	1000	964
5	03936-Kamrej	897	898	874
6	03937-Surat City	756	0	756
7	03938-Chorasi	640	725	593
8	03939-Palsana	791	863	695
9	03940-Bardoli	967	989	926
10	03941-Mahuva	970	970	0
	District: 492-Surat	**787**	**925**	**756**

Table 5 depicts the sex ratio for the sub-districts. Among all sub-districts, Mandvi (997) has the highest sex ratio and Chorasi (640) has the lowest. Mandvi sub district also has the highest rural as well as urban sex ratio. Chorasi sub district has the lowest rural and urban sex ratio as well.

Table 6
Sex Ratio by CD Blocks (Rural), 2011

Sr. No.	Name of CD block	Sex Ratio	Sr. No.	Name of CD block	Sex Ratio
1	2	3	1	2	3
1	0211-Olpad	922	6	0217-Chorasi	725
2	0212-Mangrol	904	7	0218-Palsana	863
3	0213-Umarpada	989	8	0219-Bardoli	989
4	0214-Mandvi	1000	9	0220-Mahuva	970
5	0215-Kamrej	898		**Total**	**925**

Table 6 gives the sex ratio by CD Blocks (Rural). Mandvi CD Block has the highest sex ratio (1000) whereas Chorasi CD Block has the lowest (725).

Table 7
Sex Ratio of Rural Population by Ranges, 2011

Range of Sex Ratio for Villages	Number of Inhabited Villages	Percentage of Villages In Each Range	Population 2011	Percentage Distribution of Population
1	2	3	4	5
Less than 700	11	1.59	66592	5.40

Table 13 represents the percentage of scheduled caste and scheduled tribe population in different sub districts of Surat. In this district proportion of scheduled castes (3%) is less than that of Scheduled tribes (14%). Kamrej sub district has the highest percentage of Scheduled castes (5.4%) and Umarpada has the highest percentage of Scheduled tribes (96.7%) and lowest percentage of Scheduled castes (0.1%). Lowest percentage of Scheduled tribes is found in Surat city (3.0%).

Table 14 represents the distribution of scheduled castes and scheduled tribes in all the CD Blocks (Rural). Kamrej CD Block has the highest proportion of scheduled castes whereas Umarpada CD Block has the lowest. Umarpada CD Block has the highest proportion of scheduled tribes whereas Chorasi CD Block has the lowest.

Table 15
Proportion of Scheduled Castes Population to Total Population in Villages, 2011

Percentage Range of Scheduled Castes Population to Total Population	Number of Villages	Percentage	Scheduled Castes Population	Percentage

Table 30 represents the number and percentage of main, marginal and non-workers by sex in different sub districts of Surat. Total workers (main + marginal) in the district are 42 percent. Percentage of male workers and female workers are 63 and 15 percent respectively. Percentage of total workers are the highest in Umarpada sub district. Percent of non-worker is the highest in Surat City. In case of main worker proportion of male percentage is higher whereas for marginal worker proportion of female is more.

Table 31

Number and Percentage of Main Workers, Marginal Workers and Non-Workers by Sex in CD Blocks, 2011

Table 33 represents distribution of workers by sex in four categories of economic activity (cultivators, agricultural labourers, household industry workers and other workers) in all the sub districts of Surat. Percentage of cultivators and agricultural laborers are maximum in Mandvi and Umarpada sub district respectively. For cultivator male percentage is more whereas for agriculture laborer female percentage is greater. As a whole percentage of household industry workers is quite less as compared to other three categories, however in comparison to male, female percentage is more for most of the sub districts. Percentage of other workers is highest for Surat city and lowest for Umarpada sub districts.

Table 34 gives distribution of workers by sex in four categories of economic activity in different CD Blocks (Rural). Percentage of cultivators is less as compared to agricultural laborers. Rural percentage of cultivators for the district is 17 percent and 51 percent for agricultural laborers, 1 percent is household industry workers and 32 percent are other workers. Percentage of male workers as cultivators dominates the females and reverse is the situation for agricultural laborers. At the CD Block level highest percentage of cultivators and agricultural laborer are observed in Mandvi and Umarpada CD Blocks respectively. Prevalence of household industry worker is less in all the CD Blocks, however among all comparatively higher percentage is found in Mandvi CD Block. As regard the other workers Chorasi CD Block secures the top most position and least is Umarpada CD block.

Percentage are given in bracket.

Table 36 given above shows the CD Block (Rural) wise distribution of villages according to the availability of different amenities such as education, medical, improved drinking water, post office, telephone, transport communication, banks, agricultural credit societies, pucca road connectivity and power supply. Out of 690 inhabited villages in the district, 674 (97.68%) villages have educational facility. Medical facilities are available in 393 (56.96%) villages of the total inhabited villages. All 690 (100%) inhabited villages of the district have any kind of drinking water facility like tap, well, a hand pump, a tube well, etc. 344 (49.86%) villages have post office. 651 (94.35%) villages have Telephone facility and 683 (98.99%) villages of the district are connected with the transport facility. Agricultural credit societies are available in 97 (14.06%) villages. Only 73 (10.58%) villages have banking facility, 663 (96.09%) villages are linked by pucca roads and all villages of the district have power supply.

$ Transport Communication includes Bus Service, Rail Facility and Navigable Waterways.
@ Bank includes Commercial Bank and Co-operative Bank.
** Telephone includes Telephone, PCO and Mobile.
Percentage are given in bracket.

Table 37 gives the details about the number and percentage of rural population served by different amenities. Out of total population of 12,32,109 persons in the district, 12,23,901 (99.33%) persons have educational facility. 9,34,617 (75.86%) population has medical facilities and all the persons have the facilities of drinking water. Post office facilities are available to 8,78,302 (71.28%) population. Telephone facility has reached to 11,99,993 (97.39%) and 12,29,650 (99.8%) population of the district have transport communication facility. Banking facilities are available to 3,68,056 (29.87%) population of the district. 3,56,052 (28.9%) of the population have the facility of agricultural credit societies, 12,02,172 (97.57%) population have been provided pucca roads facility. Power supply is available to all rural population in the district.

So, from above analysis, we can say that villages have facilities like education, drinking water, telephone, transport communications, pucca road and power supply are satisfactory. But facilities like medical, post-office, banks and agricultural credit societies are not enough or satisfactory.

Table 38: Distribution of Villages Not Having Certain Amenities, Arranged By Distance Ranges From the Places Where These are Available, 2011

Village Not Having The Amenity of	Distance Range of Place From The Villages Where The Amenity is Available

Degree College includes Art, Engineering and Medicine
Hospital includes Allopathic & Alternative Medicine
Post office includes post office, telegraph office and post & telegraph office
Telephone includes Telephone, PCO and mobiles
Bus includes private and public
There is no concept of **Middle School** in Gujarat.

Table 38 shows that different types of amenity not available to the villages, here we observe 16 villages do not have primary school facility in which 8 villages have this facility within 5 km radius, 7 village have this facility within 5 to 10 km, 1 villages have this facility at 10 km and above distance. 678 villages do not have degree college facility, out of this 500 villages have degree college in radius of more than 10 km, 41 villages have this facility within 5 km radius and 137 villages have this facility within 5 to 10 km area.

Medical facility is one of the most important facility for people. Here we can see the most of the villages are far away from the hospital located. Out of 687 villages, 274 villages have this facility at more than 10 km radius, 139 villages having hospital within 5 km radius and 274 villages having hospital within 5 to 10 km range. In case of public health center; it is not available in 646 villages, out of which 244 villages have PHC facility within 5 km radius, 324 villages have it within 5 to 10 km radius and 78 villages have at more than 10 km radius.

Post office is not available in 346 villages, but all these villages have this facility within 5 km radius. Bus service is not available in 7 villages, out of which 2 villages and 4 villages have this facility within 5 to 10 km and more than 10 km radius respectively.

Commercial banking facility is not available to 621 villages in which 184 villages have banking facility within 5 km radius, 247 villages have banking facility within 5 to 10 km radius and 190 villages have banking facility available at more than 10 km radius, while co- operative banking facility is not available in 671 villages in which 160 villages have banking facility within 5 km radius, 270 villages have banking facility within 5 to 10 km radius and 241 villages have banking facility available at more than 10 km radius.

Agriculture credit societies are not available to 593 villages in which 182 villages have that facility within 5 km radius and 238 and 173 villages have that facility within 5 to 10 km and more than 10 km radius respectively.

** Telephone includes Telephone, PCO and Mobile.

Table 39 shows the distribution of villages according to four ranges of the distance from the nearest statutory town along with number of villages and availability of different amenities. Out of 690 inhabited villages, 18 village at a distance of less than 5 km from the nearest town in which amenities like post-office, bank and agriculture facilities not available to all people while rest of facilities are available to most of villages. Out of total of 690 villages, 236 villages are situated at the distance of 5 km to 15 km from the statutory towns. Of these 236 villages, 226 villages having educational facilities, 131 villages having medical facility, 123 villages are

having post office, 231 villages have telephone facility, all villages have transport and communication facility, 26 villages have facility of bank and 35 villages have facility of agricultural credit society, also 229 villages have pucca road facility.

Out of total village, 398 villages are located at a distance of 16-50 km from the statutory town. Of these 398 village, 392 villages have education facility, 218 villages have Medical facility, 202 villages have post office facility, 375 villages have Telephone facility, 391 villages have Transport Communications facility, only 43 villages in this range have Bank facility, 57 villages have facility of Agricultural Credit Societies and 383 villages Approach by Pucca roads facility. Out of total villages, 38 villages are located at distance of more than 51 km from the statutory town. Of these 38 villages all the facilities are enough except facilities of post-office, bank and agriculture.

Here we observe all facilities are enough available in this district except facilities of post-office, bank and agriculture credit society.

Table 40: Distribution of Villages According to Population Range and Amenities Available, 2011

Note: - * Education includes all Education Facilities.

^ Medical includes all Medical Facilities.
Post office includes Post Office, Telegraph Office and Post and Telegraph Office.
$ Transport Communication includes Bus Service, Rail Facility and Navigable Waterways.
@ Bank includes Commercial Bank and Co-operative Bank.
** Telephone includes Telephone, PCO and Mobile.

Table 40 gives the distribution of villages according to different population ranges and amenities available. Out of 690 villages, 9 villages having population of 10,000 in which all the facilities are enough to all people.

Out of all villages, 28 villages are in population range of 5,000 to 9,999. In which all the facilities are enough to all people except agriculture credit society is 57.14 percent in this population range. It is necessary to improve bank facility in this population range because here population is higher than other ranges of population.

There are 137 villages in the population range of 2,000 to 4,999, in which all of which have all of the above facilities except banking facility is in 31 village and 35 villages have agriculture credit society facility. There are 88 villages in the population range of 1-499 persons. In that range amenities like medical, post-office, bank and agriculture credit societies not available to most of villages of this population range, rest of facilities are satisfactory.

Likewise if we can see the population in the range of 500-999 and 1000-1999, the picture is same as other population ranges amenities like medical, post-office, bank and agriculture credit society are not much available in most of the villages in this population range.

Table 41: Distribution of Villages According To Land Use, 2011

Sr. No.	Name of C.D. Block	Number of inhabited villages	Total area (in Hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	0211-Olpad	103	67413.42	63.56	83.19
2	0212-Mangrol	90	56110.75	55.12	44.08
3	0213-Umarpada	63	26071.04	49.16	6.67

5	0215-Kamrej	68	37131.14	83.65	89.47
6	0217-Chorasi	37	16821.00	69.97	86.25
7	0218-Palsana	46	18804.29	84.96	88.14
8	0219-Bardoli	81	36226.09	81.66	74.15
9	0220-Mahuva	69	35401.04	76.08	80.78
	Total	**690**	**360796.77**	**67.41**	**70.56**

Note: - Cultivable area= irrigated area + un-irrigated area

Table 41 gives the details about CD Block (Rural) wise distribution of villages according to it also gives details of total area cultivable area available from the total area and area irrigated from the cultivable area available in the inhabited villages in the district. cultivated area includes irrigated as well as unirrigated area. There are 690 inhabited villages in the district having a total area of 3,60,796.77 hectares. Of this, 67.41 percent area is cultivable and 70.56 percent of total cultivable area has irrigation facilities.

By observing all talukas we can see that Kamrej taluka's irrigation area is 89.47 percent which is high among all talukas. In Umarpada taluka 6.67 percent area has irrigation facility which is low among all talukas. Also in all rest of talukas irrigated area to total cultivable area are more than 50 percent except Mangrol taluka.

22	524347-Baben (CT)	

Table 45 indicates the most important commodities manufactured and exported out of each town of the district. The most important commodities manufactured in the towns are Various Glass Bottle Production, Textile Units, Sugarcane, Tiles, Art Silk Fabrics, Jari Goods, Diamonds, Steel, Engineering/refinery, Cement, Cloth Industries, Engineering, Urea Fertilizer, Textile Raw Material,(Reliance), Cloth, Various Chemicals and Medicines, Sarees, Food Products and Milk.

(vii) Major Social and Cultural Events Natural and Administrative Developments and Significant Activities during the Decade

Surat district was parted into two by forming of Tapi district under the Surat district re-organization by the Act 2007.

- Surat ranks 4th in a global study of fastest developing cities conducted by The City Mayors Foundation, an international think tank on urban affairs. Surat Bags Best City Award constituted by Annual Survey of India's City-Systems (ASICS).

- The authority has exercised to make the Apparel Park completely working. The Surat, famous in world by 'diamond', 'Textile Town', 'Golden City' (Sonani Murat) is now emerged as an economic capital of the state. To- day, Surat is drawing attention of world due to its development. Among the fast developing cities of the world, Surat is leading. The organization named Shakti foundation working for making the women Self –reliant and the District Village Development Agency, Surat have captured the challenge of being participant in the progress of state as well as district and to reactivate Sachin Apparel Park Started for being landmark in the industrial development of Surat.

- **Off Site Emergency Plan of Surat District**

  As per the guidelines of Government, in all the factories storing - consuming chemicals analyzed as risky, the Mock– drill of off–site emergency is held once in a year along with different Government Departments of the district under the chairman ship of collector.

- In order to prevent any big accident, the department implements Security through close inspection twice in a year by the Inspector in – change of such factory and through the head of the Region once in a year. Even though, if any such accident occurs, an on – site emergency plan is made for each factory, so that minimum damage may occur to the life and property at that time. Once it's mock – drill is also made. Mock – drills were carried out at three different companies viz. (1) O.N.G.C (2) Reliance Industries Ltd. (3) Kribhko Ltd at Hazira in 2008.

- **Industrial Hygiene Laboratory**

  A decision was taken by the state Government to establish such Industrial Hygiene laboratories in four regions during the year 2009. The work of such laboratory has been started in Surat region from 2001 by equipping monitory instruments.

- **Golden Decade of Magdalla Ports of Surat**

  Surat city is a first selection for the businessmen since years. If we turn the pages of history, it is observed that Surat was the only such city where flags of 84 countries were flying. The business with foreign countries was done very normally from the Surat Port even today Surat Port has become main centre for business and big industries established at Hazira Patti.

  At present there are two jetties of Gujarat Maritime Board at Magdalla. Moreover, there are jettis of Essar Steel, Essar bulk terminal, Reliance ithilin, Reliance

2 - G –Gas, Reliance SBM, L & T Main, and L & T Ro – Ro, and Ambuja. There is also private Jetti of Kribhko. There are private ports of Hazira Port Pvt Ltd and Adani Hazira Pvt Ltd at Hazira. There is constant increase in import–export of goods is found at Magdalla groups Port during 2002– 2003 to 2011–12.

- Before 2000, no green house, net–house were found in Surat. But with the genuine efforts of the state Government; horticultural crops are taken through Green House in 240 acres and through net – house in 75 acres.

(viii) Brief Description of Places of Religious, Historical or Archaeological Importance in Villages and Places of Tourist Interest in the District

Name of Taluka: Surat
Name of Town: Surat
Location Code: 802629

Natural View of Surat

Surat is popularly, believed to have been founded by Gopi, a Nagar Brahmin who rose to be the Prime Minister in the Sultanate of Gujarat under Mohmud I and Muzaffar II Surat had its own mint and the coins (Mahmud is) struck there were current in South Gujarat till 1688. During the regime of Aurangzeb, Shivaji Seized Surat twice but the trade and the morale of the traders were not affected. The later raids of Marathas too could not slacken the trade. The English became the masters of the castle in 1759 and finally took over full control of the city and the district in 1800. Three centuries ago Surat was one of the biggest cities of Gujarat and the chief port of the Mogul Empire. It was the emporium of trade inland and seaborne. With the development of Bombay as the chief port of the Western coast of India, the trade, wealth and importance of Surat declined a great deal. After, about two centuries, however, Surat has improved its trade. Textiles, wood lacquer and ivory handicrafts, embroidery, jewelry and fine silver are important industries of the city. Today, this city is more known for diamond cutting and polishing industry besides the jari and art silk produced there**.**

European Tombs

It is said that the competition between the Dutch and the British followed them even past death. They erected grand mausoleums instead of the normal tombstones in Europe, heavily influenced, ironically, by Hindu and Islamic elements belonging to the very natives to whom they were each trying to prove their superiority as colonizers. Next door to the British and Dutch cemeteries is the churchyard of the Armenians, another important trading community from the 16th century, whose tombstones is heavily inscribed, but forgoes the superstructures of the other two communities.

Name of Taluka: Surat
Name of Town: Surat
Location Code: 802629

The Dutch Cemetery

Located near Kataragam Gate, this impressive mausoleum is that of Baron Adrian Van Reed who passed away in 1691. A massive Dome, beautiful pillars and the huge gallery make it a very outstanding monument. Dutch Graveyard is located at Kataragam. Armenian Graveyard is situated near by various graves of different sizes and styles represented notable architectural art. Among the leading graves, the graves of the director of Dutch East India Company Baron Henry Adrian Vern Reade are important one. It is marked by beautiful columns, balconies, carved ceiling & carved wooden windows.

Name of Taluka: Surat
Name of Town: Surat
Location Code: 802629

The Armenian Cemetery

The Armenian cemetery is situated adjacent to that of the Dutch. Though, the graves in this cemetery, arc bearing a large number of inscription slabs they have no super-structures raised above them as is the case in the English and Dutch cemeteries. The oldest epitaph is the one of Armenian verse over the tombstone of a lady named Marinas, the wife of the priest Wonsan, who was a crown to her husband, according to the proverbs of Solomon. The date of her death is mentioned as 1,028 of the Armenian era (Christian year 1579).

Location Code: 802629

Kavi Narmad Central Library

Kavi Narmad Central Library is a public library in Surat built by the Surat Municipal Corporation in 1991 at Ghod Dod Road. The library is the largest in the city with 2,26,391 books and a membership of 46,855. The library also houses a reading room and a newspaper section open to public. It is named after Veer Narmad the famous Gujarati poet from Surat and was opened to public on his 158th birth anniversary. On 18th January, 2011 Information Centre, separate sections for senior citizen and rare book collection, conference hall and audio visual room were added. Recently the revitalization of the library was completed.

(ix) Major Characteristics of the District, Contribution of the District in the Form of Any Historical Figure Associated with the District

Surat district is endowed with economic resources viz. agricultural land and industries. This district is famous for its cotton and paddy crops. Along with these crops such as sugarcane, jowar, groundnut, wheat and bajri are also major crops in this district. In this district, government and private sectors have established many industries. These industries are important from the point of view of their employment in the district. Minor portion of this district is covered with forest.

Bardoli, residence of Sardar has been preserved as memorial even today. The Sardar Swaraj Ashram at Bardoli consists of an exhibition of many memorable and historic photographs. Valod is known for the activities of Sardar Co-operative Society. The well-known co-operative sugar factory has also been established here.

Surat has been a city of dreamers and tourists, reformists and cultural torch bearers. Narmad, a great son of Gujarat, played the drums for the new age even hundred years before the Dandi March that passed through Surat. Surat has even today preserved the fond memories of Narmad with equal respect through his residence, statue and profound activities of Narmad Sahitya Sabha.

Surat has always nourished its institutions. Surat has turned into the headquarter of South Gujarat University. There is a museum in chowk bazaar area. It was initially known as Vinchester Museum. 'Sardar Sangrahalaya' is its new name. Surat Textile Market on Ring Road is one of the most attractive places of the present time. It is well known throughout Asia. The visitors can never forget the Nehru Garden at Athva Lines area. The other tourist's attraction is the 'Ponk Bazar'. 'Ponk' is green grain which is baked in the fire place straight from the farm itself. Surat is also known for its crematorium named 'Ashwinikumar' situated on banks of river Tapi.

The development and expansion of Surat city is due to its industry and trade. The giant Hajira Fertilizer complex and the development of Magdalla Port add to the prosperity of Surat.

The people of Surat are equally happy and joyous. People of Gujarat call Suratis 'joyous people'. The Suratis are fond of dresses, good dishes and colored life style. They celebrate their festivals and programs with all pomp pleasure. Their love for sweet and sour food is alike. Surati Dish' or dinner of Surat has always been a matter of pride for them. The river-bed is fertile enough to give them sweet fruits and tasty vegetables. Some of the vegetables are even exported to far reaching areas. Uttarayan (14th January every year) is a favourite festival of Suratis. A person of any age can be seen flying a kite, leaving his own self behind.

The history of the Zari (gold embroidery) industry of Surat dates back to the Mughal period. Even today Surat remains one of the biggest and most significant Zari manufacturing centers of India. The principal types of products are Zari threads in gold and silver, embroidery for decorative borders, shoe uppers, evening bags and accessories. Gold and silver threads are commonly used for wearing the Kinkhabs. Another specialty from Surat is tanchhoi or silk brocade, which is like woven silk tapestry.

Art-silk, power looms and mill industry has a greater contribution besides diamonds, pearls and jewelry. Textile, rayon fertilizers, cement and chemical industries are being

concentrated in Surat, Varachha, Udhana and Magdalla. The traditional craft of sandalwood and wood carving as well as precious embroidery has not halted.

Surat has produced many literary giants. The first ever novelist of Gujarat Nandshankar Mehta, pioneer in Gujarati literary criticism. Navalram, the frontline educationist, reformist and laureate, Mahipatram and Ramanbhai Nilkanth, the visionary Ranjitram Vavabhai, the humourist Jyotindra Dave and Dhansukhlal Mehta, the ace dramatist and theatrical legend C.C. Mehta and a number of contemporary figures are among them. The history of service to literature and culture by Surat is equally prosperous and bright.

(1) Sardar Vallabhbhai Patel

In February 1928 the rates of land revenue were enhanced as a result of defective inquiry by a settlement officer. The peasants protested against this enhancement and started Satyagrah under the leadership of Sardar Vallabhbhai Patel, who along with other leader and Mahatma Gandhi, went to Bardoli to guide the people. The movement was pursued with unfailing zeal in spite of great hardships to which they were subjected by revenue authorities of district and sale of their property with the result that Government had to retract and cancel the undue enhancement in land revenue. It was a result of great tact and power of organization which led to the success of this movement. Sardar Vallabhbhai Patel came to be known as Sardar in later years. Tourism Corporation of the State has considered this place for eligible growth center for tourists.

(2) Kavi Narmad

The life of Narmad was a combination of turmoil and struggle. Narmad born in Vadnagar caste in Surat believed in the principles of love and bravery. He founded Bodhi Vardhak Sabha at an age of 18 only and became its first President. He wrote his first essay there, printed it and published the same. This was perhaps the first noteworthy publication of Gujarati. Thus Narmad was regarded as the father of Gujarati prose. Narmad also composed poetry. His poetry had peculiar spirit besides rhythm, delicacy and decency. He is more regarded for his poetic genius than his actual poetry. He established number of milestones in the field of literature and social reforms during his life of 53 years. His self-confidence, firm determination and hard work had hardly any parallel. ‘Alankar Praveshika’, ‘Ras Praveshika’, ‘Pingal Praveshika’, ‘Narmakosh’ and ‘Narmad Sarvasangrah’ have an eternal place in Gujarati literature. He left his job at an early age and submitted to literature. He worked very hard for the all-round development of Gujarati language. He manifested his firm will and bravely went at every stage of his life.

(3) Premchand Raichand (1835-1900)

Premchand was born in Jain community of Surat. His grandfather Deepchand and his father Raichand inherited both wealth and the brisk business. He not only developed it, he used money for various public purposes. He donated lacs of rupees and brought glory to his predecessors. Premchand Raichand organized his business in Bombay.

He was a master in the stock market. He could single handedly impress upon the shares of several companies. Premchand Raichand earned a name as a generous donor. He donated Rs. 2 lacs each to the universities of Bombay and Calcutta for a year. He constructed Rajabhai

Tower near Flora Fountain in Bombay in memory of his mother. It was he who undertook the Church Gate reparation projects. He also established Raichand Deepchand Girls School and Raichand Deepchand Dharmashala (Inn) in Surat. He established Girls School and a library in Bharuch and Premchand Raichand training college in Ahmedabad.

(4) Jyotindra Dave (1901-1980)

One could hardly imagine that the sober looking weak in structure, Jyotindra Dave born in a colorful city like Surat and Nagar by caste, Jyotindra Dave was another milestone in the world of humour- literature of Gujarat. In any public meeting people would greet him with laughter even before he started his speech. So was his influence and popularity. He regularly wrote 'Guptani Nodh Pothi' in the monthly magazine 'Gujarat' edited by Kanayalal Munshi. He also contributed articles in 'Akhand Anand' which became very popular in Gujarat. 'Rang Tarang' in 5 parts was his memorable collection. He acted in a drama named 'Pidagrasta Professor'. His short story 'Khoti Be Aani' is very famous. He selected his elements from the day to day life, human weakness, hypocrisy, pride and emptiness of personality. He had written classic humour on crude subjects like umbrella and chair. He was another milestone in the field of humour in Gujarati literature, after Ramanbhai Nilkanth.

(5) Navalram (1836-1888)

Navalram developed his own style of literature. His greatest contribution was literary criticism. His criticism brought him more fame than his creative literature. Navalram Studied literature in depth and gave principles of deep understanding, style, method and constitution which proved even more important in the later years. Navalram is our first ever systematic critic. Navalram was born in Visnagar Nagar caste in Surat. His career did not consist any special features. He had accepted the job of a teacher in a school even before he passed his matric. He became the principal of training colleges at Ahmedabad and Rajkot during the later stage of his life. His education did not obstruct his urge to study English literature. He also studied Sanskrit literature in depth.

Besides prose, he also wrote drama and poetry during his literary life of 22 years. He translated French dramatist Moliere 'Mock Doctor' into Gujarat titled 'Bhattnu Bhopalu'. He also translated 'Meghdoot' into Meghchhand which he himself had created.

(6) Suresh Joshi (1920-1986)

The world of literature hardly comes across a genius in several decades, who breaks the old traditions and lays the foundation of new one by sheer his scholarly work. Suresh Joshi was one such genius the world of literature came across during many last decades. Suresh Joshi established his name and fame through his new wave of poetry, novels, short stories, criticisms and translations.

Suresh Joshi was born at Valod village in Surat district. He obtained his B.A.in 1943 and M.A. in 1945. He accepted the profession of a teacher. He headed the language department of Vadodara University for many years and continued his literary activities. He was the pioneer of rational thinking in Gujarat literature. His expression was fearless, intelligent, thoughtful and creative. He also contributed to the world of journalism.

'Pratyancha', 'Itara', 'Navonmesh', 'Upajati' and 'Prakiya' were his collections of poems. 'Chhinnapatra', 'Katha chakra' and 'Marnottar' were his novels. He also edited 'Kshitij', 'Uhapoh' and 'Manisha'. He is more regarded as a critic. 'Kinchit', Kathopkathan', 'Arnyaudan' etc. are his books on criticism.

(7) Tribhuvandas Gajjar (1836-1920)

Tribhuvandas Gajjar, the scientist from Gujarat, was born in a prominent carpenter family in Surat. A bright student, Tribhuvandas obtained his B.A. in Chemistry from Elphiston College of Bombay.

He had decided to make a career in science and research even when he was merely a student. He joined the college at Vadodara as a professor so as to earn the favor from the farsighted king Sayajirao. He started a laboratory of printing and dyeing technology. 'Kalabhavan' the first ever technical institution in the western region of Indian was established in 1890 and Prof. Gajjar was appointed its principal. He joined hands with the poet 'Kaant' and engaged himself in preparing science literature in Gujarati. He remained there for six years.

Then he migrated to Bombay. The plague epidemic spread and Prof. Gajjar developed a medicine of Iodine Chloride. Number of foreign companies was ready to pay huge amounts to obtain the patent, but he refused and made it freely available to the people.

(8) Mahadevbhai Desai (1892-1942)

Mahadevbhai was fortunate to live half of his life under the shadow of a superhuman personality of this era – Gandhiji as his personal secretary. He was born in Dihen village of Surat district in Anavil Brahmin community. He spent 25 years of his life of 50 years with Gandhiji. Mahadevbhai was very bright at his studies. He had a good command over several languages like Gujarati, English, Bengali and Marathi. He had miraculous memory. He got a job in the Secretariat as Oriental Translator immediately after he obtained his B.A. He studied law and got his LL.B. He was attracted by the ideology of Gandhiji and decided to leave the job. Ha joined Gandhiji's Ashram immediately then.

He was expert at translations. He had translated some 25 books including 'Chitrangada' by Ravindranath Tagore. It was he who translated Gandhiji's autobiography in English. An able journalist in him came out through 'Young India' and 'Harijan'. 'The diary of Mahadevbhai' is his outstanding contribution. He dedicated his total life in the service of Gandhiji. His life was a fountain of aroma of service and patriotism. He died, when he was in Jail along with Gandhiji and Kasturba.

(9) Ambubhai Purani (1894-1936)

Ambubhai Purani was another crusader in the field of gymnasium and physical fitness activities in Gujarat. He was both an ideal and a source of inspiration for the youth of those days.

Ambubhai was born in Surat and was brought up in Jamnagar. His father died when he was only eight years old. He completed his primary education at Bharuch under the care of his uncle. Then he went to his elder brother Chhotubhai Purani and obtained his matriculation from Vadodara. He graduated from St. Xavier's College of Bombay in 1915. Ambubhai joined the activities of physical fitness and gymnasium which his elder brother had already started propagating. Shri Aurubindo shifted to Pondicherry and Ambubhai developed the activities of spiritual reading, meditation etc. He went to Aurobindo Ashram at Pondicherry in 1923 and settled there permanently. His interest in the activities of his elder brother was intact. He also translated some of the works of Aurobindo in Gujarati.

He moved round Africa, England and America to spread the message of Shri Aurobindo and actively helped in establishing Aurobindo centers at different places.

(10) Ranjitram Vavabhai Mehta (1882-1957)

Ranjitram Mehta was born in Surat. He contributed to the glory of Gujarati literature and culture through his manifold activities like Gujarat Sahitya Sabha, Gujarati Sahitya Parishad, and celebration of anniversaries and centenaries of literary personalities, exhibition of art and culture as well as Gujarati Educational Conference. He obtained his B.A. in 1903 and entered the field of education for some time. He went to Bombay in 1906 as secretary to Professor Tribhuvandas Gajjar. The idea of establishing Sahitya Parishad had already occurred to his mind even before that. Sahitya Parishad came into existence in July, 1904 due to his active efforts.

His public life started as early as fifteen or sixteen years of age, when he was still in the school. He became a member of social and Literary Association of Ahmedabad and subsequently worked as its joint secretary. He charged the English name of the association in 1904 and called it Gujarat Sahitya Sabha. Ha also contributed to the research of folk-literature. Gujarat Sahitya Sabha introduced Ranjitram Gold Medal in 1928. The medal is given to an outstanding literary figure of Gujarat for his contribution every year. The memory of Ranjitram is thus kept alive in the field of Gujarati literature.

(11) Fardoonji Marzban (1847-1987)

Fardoonji had many firsts to his credit. He was the man who started publishing the first ever Gujarati newspaper in India, his press was first in Gujarati and he himself was the first Gujarati journalist and editor. He was born in Surat. He was smart and sharp right from his Childhood. He left Surat and went to Bombay in his urge for doing something spectacular. He started a book binding shop in 1808. He changed over to many other professions and ultimately set his eyes on a printing press.

His friend Jithbhai Chhapgar was in the printing business. He started the first Gujarati printing press in Bombay in 1812 with active co-operation from Jithbhai. He published the first Gujarati ‘Panchanga’ of Samvat 1871 in 1814 A.D. After initial hindrances, the press started running on track and Fardoonji was struck with an idea of publishing Gujarati newspaper. The only language paper in India during those days was ‘Samachar Darpan’ in Bengali, which was started in 1818. Fardoonji started publication of ‘Mumbai Samachar’ Weekly on 1st July, 1822. It was transformed into a biweekly in 1832 and it became a full-fledge daily newspaper from 1855 onwards.

(x) Scope of Village Directory and Town Directory

As mentioned earlier, the District Census Handbook is brought out in two parts-Part A and Part B separately. Part-B covers Village and Town wise Primary Census Abstract (PCA) data of 2011 Census along with Housing Amenities data whereas Part-A covers Village and Town Directory data. The scope of Village Directory and Town Directory is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged taluka wise (C.D. block wise) and within the taluka (C.D. block), they are shown location code wise. Each village is assigned a location code number for the purpose of identification. In 2011 Census, all the villages have been given unique 6 digits code number, which will remain constant across the census, and shall make it easy to do comparative study. The village code of 6 digits has been used continuous code within India. Range of 000001-799999 has been kept for villages. The Village Directory information, a map and alphabetical list of village for each taluka (C.D. block) is given in Part-A. Village Directory contains the non-census data of each village. It gives the village wise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the correlation of amenities with the number of households and population they serve. If an amenity is not in existence in the refer rant village, the distance in broad ranges from the nearest place along with name, where the amenity is available is given. The broad range with code **a.** for (<5 kms), **b.** for (5-10 kms) and **c.** for (10+ kms). Some additional information has been added viz. (1) Pre. Primary School (2) Management Institute (3) Polytechnic (4) Special School for Disable (5) Veterinary Hospital (6) Mobile Health Clinic (7) Traditional Practitioners and Faith Healers (8) Medicine Shop (9) Type of drainage connectivity for waste water outlet (10) Total Sanitation Campaign (TSC) (11) Rural Sanitary Mart/Rural Hardware outlet (12) Rural Production Centers (13) Solid and Liquid Waste Management (14) Village PIN Code (15) Public Call Office/Mobile (16) Mobile Phone Coverage (17) Internet Cafes/Common Service Center (18) Private Courier Facility (19) Auto/Modified Autos (20) Taxis (21) Vans (22) Tractors used for Transport (23) Cycle Pulled Rickshaws (Manual Driven) (24) Cycle Pulled Rickshaws (Machine Driven) (25) Carts Driven by Animals (26) National Highway (27) State Highway (28) Major District Roads (29) Other District Roads (30) Water Bound Macadam (31) ATM facility (32) Self Help Group (33) Public Distribution System (34) Mandis/Regular Market (35) Weekly Haat (36) Agricultural Marketing Society (37) Nutrition Centre (38) Accredited Social Health Activist (ASHA) (39) Community Centre with/without TV (40) Public Library (41) Public Reading Room (42)Polling Station (43) Birth and Death Registration office (44) Agricultural Product and (45) Handicrafts Products. Seven information has not been collected this time, i.e., (1) Community Health Worker (2) Telegraph Office (3) Non Agricultural Credit Societies (4) Other Credit Societies (5) Navigable water way other than river or canal (6) Income and Expenditure of the village and (7) Import, Export most important commodities.

Appendix-I	Summary showing total number of villages having educational, medical and other amenities in villages – C.D. Block level.
Appendix-I A	Villages by number of primary schools.
Appendix-I B	Villages by primary, middle and secondary schools.
Appendix-I C	Villages with different sources of drinking water facilities available.
Appendix-II	Villages with 5,000 and above population which do not have one or more amenities available.
Appendix-III	Land utilization data in respect of Census Towns.
Appendix-IV	C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having scheduled castes population.
Appendix-VI	Summary showing number of villages not having scheduled tribes population.
Appendix-VII A	List of villages according to the proportion of the scheduled castes to the total population by ranges.
Appendix-VII B	List of villages according to the proportion of the scheduled tribes to the total population by ranges.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in Town Directory is covered in following seven statements, viz., statement I to VII. The statement used in the current 2011 Census at most identical to the preceding 2001 Census. The details of Town Directory statement are given below in brief.

(I)	Statement I - Status and Growth history
(II)	Statement II - Physical aspects and location of towns, 2009
(III)	Statement III - Civic and other amenities, 2009
(IV)	Statement IV –Medical facilities, 2009
(V)	Statement V- Educational, recreational and cultural facilities, 2009
(VI)	Statement VI - Industry and banking, 2009
(VII)	Statement VII - Civic and other amenities in slums, 2009
(Appendix)	Towns showing their outgrowth with population

In all the statements the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the Town Directory. One statement-III Municipal Finance deleted and statement-V Medical, Educational, Recreation and Cultural Facilities divide in above two statement-IV and statement-V.

Village and Town Directory

Brief Note on Village and Town Directory

Village Directory 2011 Census

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

The Village Directory is being compiled for both inhabited and un-inhabited villages. In the village directory both private and government facilities/institutions have been given. In case of un-inhabited /depopulated villages, the location code number, name and area of the village is being given universally in Village Directory and Village PCA. The columns relating to the amenities and land use pattern, etc. being left blank and it will be noted against the name of the village that it is un-inhabited/depopulated. The Appendices to Village Directory and Inset Tables based on village Directory data are also prepared for inhabited villages.

In the Village Directory format for 2011 Census there are 122 columns and the details thereon are as follows:

Columns 1: Serial Number

Self-explanatory. All the villages within the CD block are presented serially in the ascending order of their location code number.

Columns 2: Name of village

Self-explanatory. The name of the villages is shown against this column. This also includes the forest and uninhabited villages.

Columns 3: Location Code Number of village

The location code number of the villages is shown against this column.

Columns 4: Area of the Village

The area of the villages has been given in hectares.

Column 5: Total Population

The total population of the village as per 2011 Census has been given against this column.

Column 6: Number of Households

The number of households as per 2011 Census has been given in this column.

Amenities

The availability of different infrastructural amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, recreation and cultural facilities, communication, power, etc. in each village have been given in the Village Directory.

Wherever the amenities are not available in the village, the distance range code viz; 'a' for <5 kms, 'b' for 5-10 kms and 'c' for 10+ kms of the nearest where facility is available is given. Column wise details are given below.

Columns No. 7 – 20 Educational Facilities

All the different educational facilities available in the village have been given under these columns. Nursery/LKG/UKG classes are included in Pre-Primary Schools, Classes up to class V included in Primary School; Classes from VI to VIII are included in the Middle School. However in Gujarat, there is no concept of Middle School. Classes up to VIII are treated as Primary School. Classes from IX and X included in Secondary School. Classes from XI and XII are included in Senior Secondary School. In case of composite schools like Middle School with Primary School or Secondary School with Middle School, these are also included in the number of Primary and Middle Schools, respectively. The information on the entire educational institutes is given under these columns.

Columns No. 21 to 38 - Medical Facilities

All the different medical facilities available in the village have been given under these columns.

Columns No. 39 to 46 -Drinking Water

The information on availability of various types of the Drinking water facility within the village has been given under these columns.

Columns No. 47 to 50 – Availability of Toilet and Others

The information on availability of Toilet and Bio-Gas etc. available in the village has been given under these columns.

Columns No. 51 to 67 Communication (Post & Telegraph and Transport)

The information on Communication and Post Office, Sub-Post Office and Telegraph Office, Village PIN Code number, Phone-Landlines, Mobile Phone, Private Courier Facility, Internet Café, etc.; available in the village has been given under these columns. The information on all various transport facilities whether public/private transport like Bus, Railway Station, or Navigable waterways, Taxi, Van, Tractors etc. available in the village has also been given under these columns.

Columns No. 68 to 79 – Village Connected to Highways, Village Roads, Banks and Credit Societies

The information on all roads connected to village has been given under these columns. These include National Highway, State Highway, District Roads and Other District Roads connected to the village, pucca roads, kuchcha Roads, Water Bounded Macadam Roads, Navigable Water Ways and Foot Paths has been given under these columns. Further, the information on availability of Banks, ATM and Agricultural Credit Societies in the village has been given under these columns.

Column No. 80 to 97 Miscellaneous Facilities

The information on various miscellaneous facilities available in the village has been given under these columns. These includes Self -Help Group, Public Distribution Shop (PDS), Mandi/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutrition

Centre (ICDS), Anganwadi Centre, ASHA, Community Centre, Sports Fields, Sports Club/Recreation Centre, Cinema/Video Halls, Public Library, Public Reading Room, News Paper Supply, Assembly Polling Station, Birth and Death Registration Office.

Columns No. 98 to 101 – Electricity

Availability of Power Supply in the village, whatever may be the form of its use has been given in these columns. These include Electricity for Domestic Use, Electricity for Agriculture Use, Electricity for Commercial Use, and Electricity for all purpose Domestic Uses.

Column No. 102 and 103 -Nearest Town

The name of the nearest town along with the distance range code has been in these columns.

Land Use and Irrigation

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the following 9 categories.

Column No. 104 –Forests

This includes all lands classed as forest under any legal enactment dealing with forests or administered as forests, whether state-owned or private, and whether wooded or maintained as potential forest land. The area of crops raised in the forest and grazing lands or areas open for grazing within the forests remain included under the forest area.

Column No. 105- Area under Non-Agricultural Use

This includes all lands occupied by buildings, roads and railways or under water, e.g. rivers and canals and other lands put to uses other than agriculture.

Columns No. 106- Barren and Un-cultivable Land

This includes all barren and uncultivable land like mountains, deserts, etc. Land which cannot be brought under cultivation except at an exorbitant cost should be classed as uncultivable whether such land is in isolated blocks or within cultivated holdings.

Column No. 107- Permanent Pastures and Other Grazing Lands

This includes all grazing lands whether they are permanent pastures and meadows or not. Village common grazing land is included under this head.

Column No. 108- Land under Miscellaneous Tree Crops, etc.

This includes all cultivable land which is not included in ‘Net area sown’ but is put to some agricultural uses. Lands under causing trees, thatching grasses, bamboo bushes and other groves for fuel, etc. which are not included under ‘Orchards’ are classed under this category.

Column No. 109- Cultivable Waste Land

This includes lands available for cultivation, whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and the last five years

or more in succession for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within cultivate holdings. Land once cultivated but not cultivated for five years in succession is also included in this category at the end of the five years.

Column No. 110- Fallow Lands Other than Current Fallows

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years.

Column No. 111- Current Fallows

This represents cropped area, which is kept fallow during the current year. For example, if any seeding area is not cropped against the same year it may be treated as current fallow.

Column No. 112- Net Area Sown

This represents the total area sown with crops and orchards. Area sown more than once; in the same year is counted only once.

Column No. 113- Total Irrigated Land Area

It includes all land which is cultivable and irrigated by any source of irrigation. The total irrigated area of the village has been given under this column.

Column No. 114- Total Un-Irrigated land Area

Un-Irrigated area includes all land which is cultivable but not irrigated by any source of irrigation. The total un-irrigated land area of the village has been given under this column.

Column No. 115 to 119 Area Irrigated by Source

The areas irrigated by various source of irrigation in the village have been given under these columns. The different source of irrigation facilities available in the village are as follows

(i) Canals (C)-Govt. or Pvt.
(ii) Wells/Tube-wells (W/TW)
(iii) Tanks/Lake (T/L)
(iv) Waterfall (WF)
(v) Others (O)

Columns No.120 to 122-Three Most Important Commodities Manufactured

The names of three most important commodities manufactured in the village are indicated in this column.

C.D. Block Level Totals of the Village Directory

At the end of entries for the Village Directory of each C.D. Block, the totals of different columns are being given wherever possible. However, in case of some of the columns, it may not be possible to work out the CD Block level totals, in such cases the particular of relevant columns are being left blank against C.D. Block level.

Appendices to Village Directory

The Village Directory also includes the following appendices:

Appendix –I:	Summary showing total number of villages having educational, medical and other amenities in villages – C.D. Block level.
Appendix I A:	Villages by number of primary schools.
Appendix I B:	Villages by primary, middle and secondary schools.
Appendix I C:	Villages with different sources of drinking water facilities available.
Appendix II:	Villages with 5,000 and above population which do not have one or more amenities available.
Appendix –III	Land utilization data in respect of Census Towns.
Appendix –IV:	C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix –V:	Summary showing number of villages not having scheduled castes population.
Appendix –VI:	Summary showing number of villages not having scheduled tribes population.
Appendix -VII A:	List of villages according to the proportion of the scheduled castes to the total population by ranges.
Appendix- VII B:	List of villages according to the proportion of the scheduled tribes to the total population by ranges.

Town Directory 2011 Census

Village is a statutory recognized unit having a definite boundary and separate revenue land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town, the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

Note Explaining the Abbreviations used in Town Directory 2011 Census

Statement I- Status and Growth History

Column 1- Serial Number

Self-explanatory

Column 2- Class, Name and Civic Status of Town

The Class is presented according to population of the towns in 2011 Census as follows:

Population	Class	Population	Class
100,000 and above	I	10,000 – 19,999	IV
50,000 – 99,999	II	5,000 – 9,999	V
20,000 – 49,999	III	Below - 5,000	VI

The following abbreviations are used to denote the Civic Status of the town.

Civic Status	Codes	Civic Status	Codes
i-Municipal Corporation	M.Corp.	xii – Notified Town Area	NTA
ii-Municipal Committee	MC	xiii – Industrial Notified Area	INA
iii-Municipal Council	M Cl	xiv – Industrial Township	ITS
iv-City Municipal Council	CMC	xv – Township	TS
v-Town Municipal Council	TMC	xvi – Town Panchayat	TP
vi- Municipal Board	MB	xvii – Nagar Panchayat	NP
Vii –Municipality	M	xviii – Town Committee/ Town Area Committee	TC
viii- Cantonment Board/ Cantonment	CB	xix – Small Town Committee	ST
ix- Notified Area	NA	xx – Estate Office	EO
x –Notified Town	NT	xxi –Gram Panchayat	GP
xi - Notified Area Committee/ Notified Area Council	NAC	xxii – Census Town	CT

Column 3 – 25

These columns are self-explanatory

Statement II

Physical Aspects and Location of Town, 2009

Column 1 - 2 Serial number and Name of Town

Self-explanatory

Columns 3 to 5 - Physical Aspects

In these columns the rainfall and maximum and minimum temperature of the town is recorded.

Columns 6 to 12

Name and road distance of the town (in kms.) from the state headquarters, district headquarters, sub-divisional/taluka/tehsil/police station/development block/island HQ., nearest city with population of one lakh and more, nearest city with population of five lakh and more, railway station and bus route is recorded in these columns respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Statement III – Civic and Other Amenities, 2009

Column 1 - 2 Serial Number and Name of Town

Self-explanatory

Column 3 – Road Length (in km.)

The information about the road length (in km.) within the limit of the town is recorded in this column.

Columns 4 to 7- System of Drainage

The system of drainage available in the town is indicated in these columns by the following codes

System of Drainage	Codes
Open drains	OD
Closed drains	CD
Both drains	BD

Columns 8 to 11-Number of Latrines

The number of various types of latrines available in the town is indicated in these columns.

Columns No. 12 & 13 – Protected Water Supply

The information on source of water supply and system of water storage with capacity available in the town are given in these columns in the following codes

Column 12 (Source of Water Supply)

(i)	Tap Water	T
(ii)	Tube-well Water	TW
(iii)	Tank Water	TK
(iv)	Well Water	W

Column 13 (System of Water Storage)

(i)	Over Head Tank	OHT
(ii)	Service Reservoir	SR
(iii)	River Infiltration Gallery	RIG
(iv)	Bore Well Pumping System	BWP
(v)	Pressure Tank	PT

The information on 2 major source of water supply is given in column 12 and the system of water storage with capacity against each in kilo-liters (in bracket) is presented in column 13.

Columns 14 Fire Fighting Service

In case the firefighting service is available in the referent town, ‘yes’ is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Columns 15 to 19 Electrification (Number of Connections)

Different types of electric connections have been shown in these columns, i.e., Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement IV

Medical Facilities, 2009

Columns 1 - 2 Serial Number and Name of Town

Self-explanatory

Columns 3 to 9 and 11 to 13

The number of various medical institutions such as Hospitals, Dispensaries, Health Center, Family Welfare Center, Maternity and Child Welfare Center, Maternity Homes, T.B. Hospital/clinic, Nursing Homes, Charitable Hospital/Nursing Home, Mobile Health Clinic and Others as available in the town, are indicated in these columns (along with number of beds in brackets)

If a medical facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

Column 10- Veterinary Hospital

The Number of Veterinary Hospitals available in the town is given in this column.

Column 14- Medicine Shop

The number of Medicine shops available in the town is given in this column.

Statement V

Educational, Recreational and Cultural Facilities, 2009

Columns 1 - 2 Serial number and Name of town

Self-explanatory

Columns 3 to 15 Educational Facilities

The information on number of Primary school, Middle school, Secondary school, Senior Secondary school, Arts/Science/ Commerce colleges (of degree level and above), Medical colleges, Engineering colleges, Management Institute/Colleges, Polytechnics, Recognized Shorthand, Typewriting and vocational training Institutions, Non-formal Education Center (Sarva Shiksha Abhiyan Center), Special School for disabled and others available in the town, are indicated in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

Columns 16 to 23

Number of Social, Recreational and Culture Facilities:- The information on No. of Home Orphanage, Working Women's Hostels (with No. of seats in bracket), No. of Old Age Home, Stadium, Cinema Theatre, Auditoriusm/Community Halls, Public Libraries and Reading Rooms available in the town are given under these column.

Statement VI: Industry and Banking 2009

Columns 1 - 2 Serial Number and Name of Town

Self-explanatory

Columns 3 to 5 Names of Three Most Important Commodities Manufactured

The names of three most important commodities manufactured in the town are given under these columns.

Columns 6 to 8 - Number of Banks

The number of banks available in the referent town both Commercial and Co-operative Banks are recorded against these columns.

Columns 9 & 10 – Number of Agricultural and Non Agricultural Credit Societies

The number of Agricultural and Non Agricultural Credit Societies available in the referent town are given in these columns.

Statement VII: Civic and other Amenities in Slums, 2009

This statement VII provides information on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.
